Hi Rich,

I hope you are enjoying your day off. I just wanted to let you know that Exec Sec's request has been completed. [REDACTED] (b)(5).

Thanks,
Jill

Hi Mark,

I was able to obtain some updates regarding BLM -

Hydraulic Fracturing Rule: The BLM's proposal to rescind the rule has been approved by the Solicitor's Office and is soon to be surnamed by the BLM Director. The BLM expects it will be on Kate's desk next week.

Venting and flaring (methane) rule: The BLM has prepared a memo including a discussion of the current state of the rule, how to proceed, and thoughts on what should and should not be included in a revised rule. The memo should be on Kate's desk later today.

I hope that is helpful.

Thanks,
Jill

Thanks Jill.

In addition to any other actions ASLM bureaus are taking or that are required under the EO or SO, please look particularly at section 5(c) of SO 3349 for these actions:

- 1- BLM to propose rescinding the hydraulic fracturing rule
2. BLM to review the venting and flaring rule
3. All bureaus to report on all actions that potentially burden energy production

I need an update on the status of all energy-related reports due under regulatory reform (EO 13783 or SO 3349 Section 5c) by noon today.

Please call if you have questions.
