MAXIMON
PRESSURE GAUGES**

Long known for producing pressure gauges of proven dependability and accuracy, Lonergan has made even greater advances in design and construction with the line of Maximon Gauges. This series of premium-specification gauges are AA grade and meet the demand for applications requiring highest standards of instrumentation. Sizes range from 4 1/4" through 12". The line includes gauges for a broad group of services including steam, water, air, oxygen, oil, distillates, high pressure steam, etc. Various constructions provide for both corrosive and non-corrosive conditions.

Full details about the complete line of Lonergan Maximon Gauges as well as our standard line of gauges is given in our Catalog 800G—write for a copy or ask your regular Lonergan distributor.

Worth looking into...

THE 8 REASONS WHY B & G SERIES 1522 PUMP DOES A BETTER JOB

When you check into these design features, it's easy to understand why B & G Series 1522 Pumps are making performance records...

- First: Leak-proof Mechanical Seal—ends stuffing box troubles.
- Second: Spring-type flexible coupling—contributes to unusually quiet operation.
- Third: Dynamically balanced impeller.
- Fourth: Easily serviced. Removal of a few bolts permits separation into three parts.
- Fifth: Interchangeable parts. The bearing bracket sub-assembly, including shaft and sleeve bearings, is manufactured to close tolerances and is interchangeable in all B & G 1522 Pumps.
- Sixth: Shaft alignment maintained by oil-lubricated, high grade bronze sleeve bearings.
- Seventh: Standard motors—easily obtainable from motor manufacturer's stocks.
- Eighth: With all these features, B & G Pumps are competitively priced! Don't delay—get the facts now on B & G Centrifugal Pumps.
