Carrier's No.

RECEIVED, subject to the classifications and tariffs in effect on the date the receipt by the carrier of the property described in the Original Bill of Lading,

at Tacoma Sept 1 19 42

from **REICHHOLD CHEMICALS, Inc.**

The property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

May 25, 1972

Dear Sir:

On December 15, 1971 Monsanto Company advised your company of the termination of the sale of its Therminol® FR series heat transfer fluids. At that time, we offered to pay freight costs incurred in returning the Therminol FR to us and costs for proper disposal of the material (by high temperature incineration). Many companies have taken advantage of this offer.

We are now writing to advise you that, effective July 1, 1972, Monsanto will terminate this offer because we anticipate the majority of conversions will be completed by that time.

After July 1, 1972 however, we will, until further notice, continue to make available our high temperature incineration service for proper disposal of any Therminol FR fluid or fluids contaminated with PCB's*, which your company may have on hand, on the following basis:

1. We will charge 3¢/pound to incinerate fluids sent freight prepaid to our Sauget, Illinois plant for:
   a) Therminol FR series fluids.
   b) Therminol 55 or 66 fluids which may contain PCB's formerly in your system.
   c) Monsanto's MCS-681 flush fluid used for flushing a PCB heat exchange system.
2. We will charge 5¢/pound to incinerate non-aqueous, non-Monsanto fluids contaminated with PCB if sent freight prepaid to our Sauget, Illinois plant.

If you desire this service, please call (314) 694-2514 or write to Dr. Cumming Paton, Monsanto Company, P. O. Box 14617, St. Louis, Mo. 63178.

Thank you for your cooperation.

Sincerely,

Cumming Paton
