CONFIDENTIAL

The attached "in hand" status report was modified to delete the word "knowing" in reference to types of PCB losses. Please discard any previous copies of this report.

This report was prepared to have a document "in hand" for the federal authorities in the event we were asked for such a document. However, final approval will be requested from Mr. W. B. Papageorge before actually giving this report to any governmental agency.

I have additional copies if needed.
