**Location of Workshop:  
Willard InterContinental Hotel  
Washington, D.C.**

**Potomac Forum Training Workshops are 100% Educational  
and NOT Sales or Marketing Events**

**Workshop for Government & Industry Partners  
Press is Not Permitted to Encourage  
Candid Discussion in our Learning Environment**

-----

**Keynote: Dr. Ron Ross**

*The Cybersecurity Executive Order:  
Building the Next Generation  
Risk Management Framework and Controls*  
**NIST Fellow**

**Author of the NIST Risk Management Framework (RMF) and  
Numerous NIST Cyber Security Publications**

**Additional Government Speakers are being  
approved for participation by their Agencies**

**Potomac Forum Workshops are 100% educational programs and not  
sales or marketing events!**

**Overview:**

**This workshop will focus on the progress to date in implementing the President's EO on Cybersecurity with emphasis on key requirement: identification of High Value Assets, implementation of NIST's Risk Management Framework (RMF) and Cybersecurity Framework (CSF). The CSF and RMF are critical for the federal government in its efforts to mitigate risk within enterprise information systems. The workshop will also discuss the relationship of the RMF and CSF to NIST SP 800-53 r5.**

**Hear from industry experts and government officials tasked with implementing robust cybersecurity and risk management strategies along with learning how NIST's CSF and RMF can be effectively implemented to reduce the risk of cyber-attacks.**

**Listen to a government panel of CIO, CISO and IG staff to understand the challenges they are facing on a day-to-day basis and how implementation of NIST's CSF and RMF helps them identify the risks and what it takes to mitigate those risks. Gaining insights from the panel and peer interactions at the workshop should be invaluable in moving the needle forward to improve federal cybersecurity.**

#### What You Will Learn:

- **The value of the integration of the NIST RMF, NIST CSF and their relationship to NIST SP 800-53 r5**
- **Lessons learned from agency risk management and high value asset reporting**
- **Dos and don'ts for agencies in implementing the Cybersecurity Executive Order**
- **Best practices for responding to the Cybersecurity Executive Order**
- **Next steps for agencies in implementing cybersecurity best practices**

#### Why You Should Attend:

- **Gain a better understanding of the May 11th Presidential Executive Order on Cybersecurity and how it is being implemented**
- Obtain practical knowledge of lessons learned from government leaders who are involved in implementing the Cybersecurity Executive Order
- Collect information on how NIST frameworks can be leveraged to enhance the security of your organization
- Learn how risk management and cybersecurity are essential for regulatory compliance
- Meet with risk management, cybersecurity, OIG and CIO colleagues

#### Who Should Attend:

- CIOs, CISOs and Staff
- IT security and risk management practitioners
- IGs and Staff
- Program Managers responsible for risk management
- Government Employees who want to better understand organization risk management
- Executives who oversee risk management for the government
- All government executives, managers and staff who need to better understand risk management and implementing the President's Executive Order

CEUs Awarded Upon Workshop Completion
