THE reinforcing, in the four sizes of reinforced comes listed above, consists of a steel bar embedded between the two hearts and milled in. Water-tight and air-tight. No chance of corrosion of the steel bar.

The plain sizes are single heart comes without reinforcement.

Pieces of antique and rustic comes will be furnished on application and will vary with the lead market.

Packed in six-foot lengths in boxes.

ANTIQUE

Closed Slot Reinforced Came Lead

RUSTIC

THESE comes, like the antique and rustic reinforced styles described above, have the steel reinforcing strip embedded between the two hearts. They are therefore thoroughly protected against corrosion.

Packed in six-foot lengths. One hundred pounds to the box.

Pieces of comes will vary with the lead market. Write to nearest branch for price list.

Reinforced comes, as well as other came lead and solder, can be supplied by the following branches:
