ATTACHMENTS

Exhibit	Description
A	May 5, 1969 letter from the U.S. Navy to GAF regarding the hazards of asbestos. This is the first time the Navy made any effort to take asbestos out of its ships.
B	Internal GAF memorandum dated March 9, 1971 re: discussion with U.S. Navy regarding non-asbestos Calsilite.
C	Internal GAF memorandum dated May 10, 1971 re: proposed field experience for non-asbestos Calsilite.
D	Letter for GAF to Henry Murad, NAVSEC, dated May 13, 1971, transmitting application for Qualification Testing for non-asbestos Calsilite.
E	Letter from GAF to Naval Bureau of Medicine and Surgery, dated May 20, 1971 re: approval of non-asbestos Calsilite by Committee on Toxicology.
F	Internal GAF memorandum, dated October 8, 1971, re: possible Navy approval of non-asbestos Calsilite through Naval Bureau of Medicine and Surgery, National Research Council.
G	Internal GAF memorandum, dated November 12, 1971, re: Navy approval of Calsilite products on Qualified Products Lists.
H	Letter to GAF from Naval Ship Engineering Center dated November 1, 1971 acknowledging GAF's application for Qualification Testing of its non-asbestos Calsilite, and indicates that the product would not be approved under current military specifications. " . . . your application for qualified testing will be held in abeyance until a determination has been made as to whether the specifications can be modified in accordance with your recommendation."

Exhibits	Description
I	1971 U.S. Coast Guard Certificate of Approval, renewing qualification of asbestos-containing Calsilite for an additional 5 years.
J	Letter from Naval Ship Engineering Center dated March 17, 1972, re: removal of Calsilite from Qualified Products List.
