

1 had to do or what the job was.

2 Q And Mr. McGowan talked to you about the
3 brown coat and the white coat.

4 Am I correct that those would be the same
5 products you would have used at the Loch Raven
6 Apartments?

7 A Oh, yes. That was all brown mortar and
8 white coat there.

9 Q Now, I read your deposition and when you
10 talked about the plaster products, you used --
11 sometimes you said USF&G and sometimes USG.

12 Am I correct that it would be USG, United
13 States Gypsum products?

14 A U.S. Gypsum. Hampshire used mostly all of
15 that because, you see, the railroad used to come in
16 Mr. Hampshire's yard when I first started there in '46
17 and they would get their stuff by the boxcar load and
18 just wheel it right into the warehouse and we got all
19 U.S. product.

20 Q What was the trade name of the USG plaster
21 that you were using?
