Office/Plant Location

Shelden Rd Plant

Meeting Location

Shelden Rd

Called by D.T. Pearson

Subject: Asbestos Exposure Shelden Rd in Sight of Proposed OSHA
Rule Making Change 29 CFR Part 19101

Personnel involved: D.T. Pearson I.R., Jr. Vaughn Blt Eng, S. Evans Blt Eng,

F. Briggs Blt Eng, J. Sachman Emp Sec, W. Wilkko Supt. - P.E. Toth Ind Hyg

Purpose: To present plant management personnel listed above with
this unit's impressions of the present OSHA Standards and the
proposed OSHA Standard

Results: Since employee exposures are controlled below 5 fiber TCU
as of Feb 7, 1972 sampling, no drastic action other than
what has been planned should be contemplated. This
position should be maintained until an OSHA inspection

Further Action/by Whom: prove it to be in error or if we learn
more of OSHA policy that proves it to be in error. The
plant also mentioned that they are trying to eliminate
deblasting and drilling operations through a tooling change

Distribution: /File Location Shelden Rd Plt
