Memo To: W. E. McClung - PS

From: *RJC* R. J. Carlson - BBQSubject: QUALITY AUDIT -
FOLLOW-UP ON RECOMMENDATIONS

Date: November 28, 1984

Approximately six weeks have passed since the Quality Audit was conducted at Shreveport with resulting recommendations concerning:

Lightweight product detection and segregation

Elimination of surface moisture on packaged shingles

Increase saturation level on Wind Seal shingles to meet U/L minimum

Improve registration of Arch. 80 components

Would you please provide a progress report on what action has been taken to-date towards implementing these recommendations.
