Thank you, Sarah and Mandy, for expressing an interest in the rulemaking process. During this meeting, I will provide an overview of the various statutes and Executive Orders that influence the procedures and timing of EPA rulemaking. I'll also talk a bit about the Action Development Process, although the Office of Policy are the true experts. We'll have time for plenty of discussion and questions.

Gautam and Sarah – I thought ARLO and OP might want to join me for this conversation. If so, please feel free to forward this invitation to whomever you wish.

Briefing for Sarah Greenwalt.

Background: The Final Steam Electric Effluent Limitations Guideline (ELG) Rule was signed on September 30, 2015 and published in the Federal Register on November 3 of that year. The Rule updates the nationally-applicable technology-based regulations under the Clean Water Act for the steam electric power generating industry, which were last revised 35 years ago, to limit the amount of toxic metals (e.g., mercury, arsenic, selenium, lead), as well as nutrients, discharged into waterways. The 2015 ELG Rule is based on technologies, which are already in use in the industry, are effective for treating or eliminating toxic pollutant and nutrient discharges to surface waters, and are affordable for the industry as a whole.

Time 3:50 PM – 4:20 PM
Subject Meeting with National Alliance of Forest Owners
Location Alm Room
Show Time As Busy
Today's Date: April 3, 2017

Meeting Date: April 5, 2017

Meeting Time: 3:50 pm

Requested Location (if offsite, please list address, parking instructions, etc.): EPA, Administrator's Office

Requestor: The National Alliance of Forest Owners is an advocacy association of 48 companies and 29 forestry associations representing over 80 million acres of private forestland throughout the country. Nationwide, private forests constitute 70% of the nation's forests and support 2.4 million jobs and $99 billion in annual payroll.

Purpose of the Meeting: To introduce the National Alliance of Forest Owners to the Administrator and discuss how forest owners and EPA can work together on water and air policies that will support jobs in the forestry sector and the rural economy overall.

Background on the Meeting: NAFO has two significant policy matters pending before EPA:

1. Regulation of Biomass Carbon Emissions

* Forest biomass is a plentiful renewable energy resource that is typically the product of forest management or mill operations.
* Producing energy from this low value product provides mills with an efficient power supply, supports jobs in rural communities and provides a better economic return for forest owners, many of whom continue to struggle to find markets for their wood following the Great Recession.
* For many years, EPA policy treated biomass as carbon neutral, in line with the rest of the world, meaning that any carbon emitted from

combustion of biomass is recaptured by growing forests as part of the natural carbon cycle.
* In 2010, without public notice or scientific basis, EPA's "Tailoring Rule" reversed that policy and regulated greenhouse gas emissions from biomass without regard for the natural carbon cycle.
* Since 2010 EPA has repeatedly committed to revise and clarify its biomass policy but failed to do so. The resulting uncertainty has stalled investment in biomass energy at mills and stand-alone facilities.

We are seeking to work with EPA to remove uncertainty about biomass in EPA policy through amendments to the Tailoring Rule that are pending at OMB. Clarity on biomass will correct EPA's policy on biomass, restore the natural forest carbon cycle as the underpinning for biomass energy policy, and support job-sustaining investment.

2. Waters of the US (WOTUS) Regulations

* Forest management activities are generally consider nonpoint sources except for stormwater control ditches and herbicide applications.
* Courts have required NPDES permits for herbicide applications in forests, but EPA has elected not to regulate ditches as point sources.
* However, the expansion of WOTUS under the new definition will create confusion about where else the permits are required and what additional requirements are imposed if the ditches are now WOTUS.
* Features that EPA declared to be WOTUS in the revised definition that are of concern to NAFO members include ephemeral and intermittent streams, ditches, and isolated wetlands.

Subject: RE: Question and Meeting Request -Edward G. Hild

Hi Robin – thank you so much for the response on behalf of Samantha. I will take the 3:00 PM slot. Likely joining me will be two colleagues from Buchanan – Robert Shuster and Terry Heubert and Pam Witmer the V.P. for Government Relations at UGI Energy Services. Thanks and again for your assistance and patience, as I recently left the Senate after 20 years and am just adjusting to life downtown. Ed

Subject: Question and Meeting Request

Hi Samantha – I hope this note finds you well. By way of quick background, I most recently served as Senator Murkowski's Chief of Staff and for a number of years before that with Senator Domenici. A couple of questions: 1) does the EPA maintain involvement in the state permitting process for natural gas pipelines when EPA has delegated administration of the federal 404 program – a client is asking and if so would a meeting with the right staff/staffers be appropriate, if you are not the correct person? 2) could you please direct me to the appropriate person for a meeting on the North American Emission Control Area for Marine Vessels on behalf of a different client. Thank you for your time and indulgence. I look forward to hearing from you. Ed

Somehow, we managed to let our Acting Deputy Administrator's birthday pass by without recognition. To make up for it, please come down to the Deputy's office at 12:30 today to sing the birthday song for the sake of Mike's embarrassment, and let's all eat a cookie together.

AND Shhhhhhhh! Keep it quiet. He told me he didn't want me to do anything, but I know he was lying.

PS: Please forward if you see someone's name missing.

Attendees:
Center for Regulatory Reasonableness – John Hall, Chris Rissetto
Passaic Valley Sewerage Commissioners, Newark, NJ – Mike Witt

City of Allentown, PA – Craig Messenger, Dan Koplish

John Hall also wants to talk prior to the meeting --- We need to talk before I come over with the city representatives (Allentown and Passaic Valley Sewerage Commissioners (i.e., Newark, NJ area wastewater authority)). There is little doubt that the "career staff" will try to actively undercut any relief we seek (just as they recently did on the Taunton NPDES permit issue). (See the email below)
Quite frankly, OGC attorneys and Office of Water personnel repeatedly misrepresented EPA's actions to the Court (to avoid judicial review) and filed false affidavits on a related FOIA case when we sought documents showing what they were actively enforcing nationwide. I would like to have a very frank discussion of precisely what went on under the Obama Admin. on this issue and how to fix it. You may only want new administration personnel present.

AND

Another issue we will raise is the status of Administrator Pruitt's response for the City of Taunton. (See attached letter following the March 20th meeting with Mr. Bangerter and the prior letter (w/o attachments) that sought a meeting with your office). The City must have EPA's concurrence that a stay of the ongoing litigation and peer review of the Region I permit decision is acceptable. If we don't get this letter, we will need file an appellate brief on May 17th. If necessary, I would like to talk with Ryan Jackson or Byron Brown about the timing of EPA's reply for Taunton, because the item is time critical.

Request: I am writing today on behalf of Northwest Public Power Association (NWPPA)'s Executive Director Anita Decker. Anita will be in Washington D, C. from Washington state on April 25-26, 2017. She would like to meet with Administrator Pruitt, you or other political appointees who are assigned to work on electric utility issues of interest to NWPPA.

NWPPA is an electric utility association in the Pacific Northwest representing 151 hydroelectric, nuclear power and natural gas electric utilities (municipal and electric coops) affected by EPA regulations including some that are going to be revisited under recent Executive Orders. Their membership involves many electric utilities (municipal and coop) that would be affected by EPA regulations across several states in the Northwest—not just those in Washington state. NWPPA's member utilities serve 20 million customers making it one of the largest electric utility organizations in the western part of the United States.

They are interested in the following:

* Waters of the US – next steps (realizing it has been addressed in the Executive Order)
* Clean Power Plan review and replacement (they are aware of the Executive Order action last week)
* General EPA priorities related to the electric power sector

A link to the NWPPA organization is https://www.nwppa.org/about-nwppa/ <https://www.nwppa.org/about-nwppa/> and board information at https://www.nwppa.org/about-nwppa/nwppa-board-of-trustees/ <https://www.nwppa.org/about-nwppa/nwppa-board-of-trustees/>

In advance of tomorrow's (Friday) 4 pm discussion about the NWEA Oregon temperature TMDL/ESA case, I wanted you to have the email (below) that Lee Schroer circulated on April 21st summarizing Judge Hernandez' recent decision adverse to EPA on both the CWA and ESA issues. Bottom line: the court held that EPA had unlawfully approved Oregon's TMDLs and failed to consult under ESA. Attached above as the first pdf is a similar email I circulated on October 26th summarizing Magistrate Acosta's earlier "Findings and Recommendations" in the case.

Also attached above are pdf copies of Judge Hernandez' decision and Magistrate Acosta's two F&Rs.

Hello OGC:

Anyone connecting to the OGC ALL Hands via Adobe Connect (link below) should not call into the 866 audio conference call in number to avoid sound feedback problems.

We would like to be able to see our remote and teleworking OGC staff on the screen via Adobe Connect, so please turn on your video-cameras for this meeting.

http://epawebconferencing.acms.com/ogcallhands0504 2017/ <http://epawebconferencing.acms.com/ogcallhands050 42017/>

OGC Colleagues: The Quarterly All Hands meeting will not be in room 1153 WJC East due to the unavailability of video-teleconference or data connections there due to the renovations of the room. However, we will stick to the May 4 date to give our invited guests time to prepare and certainty on all of our calendars.

We look forward to introducing our new Deputy General Counsels, as well as, other members of the Administrator's Office team. Also, remember if you have any questions you would like addressed by the OGC management team, but are uncomfortable raising them publicly,

you should feel free to place them in the OGC suggestion box located in the 7th Floor large pantry. Thank you.

Regions: Please inform RTP on which room you will be using if connecting via video. Thank you.

Location	DCRoomARN3500/OPEI

Show Time As	Tentative

Hi,

Would you set this up from Samantha's calendar Please? Thank you.

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

4 Attendees: Tamra Spielvogel, Amy Chai, Eva Birk and Tom Ward

Request: A follow-up conversation to discuss the RRP program. I'm emailing in follow-up to your conversation with Michael Mittelholzer at the NAHB meeting with Administrator Pruitt last week. I know several issues were discussed for additional follow-up during the

meeting with the Administrator including the Renovation, Repair and Painting (RRP) Program and stormwater issues which my colleague Eva will be following up with you on in a subsequent message.

Attached is the material you and Michael discussed to provide additional detail regarding NAHB's concerns regarding implementation and evaluation of the RRP program. Specifically I have provided copies of NAHB's comments related to the Section 610 review as well as those NAHB submitted during both public comment periods EPA opened during the review of issues related to the lack of an approved lead test kit. Also, for your information I am including copies of two petitions NAHB has filed with EPA on the RRP program. The most recent was in regards to the changes made to the refresher training course requirements which was denied by the agency in December 2016. The EPA response is also enclosed. I have enclosed the 2010 petition because while the other documents discuss the issues we have with the economic analysis of the rule, it was most comprehensively addressed in this petition on the test kit.

Finally, I was also told you are interested in the report where EPA's cost benefit estimates were called into question. The report was issued by the EPA Office of the Inspector General. The following link will take you to the OIG page for the report where you can access their findings, the report, as well as the responses exchanged between OIG and EPA on the report.

* https://www.epa.gov/office-inspector-general/report-review-hotline-complaint-concerning-cost-and-benefit-estimates-epas <https://urldefense.proofpoint.com/v2/url?u=https-3A__www.epa.gov_office-2Dinspector-2Dgeneral_report-2Dreview-2Dhotline-2Dcomplaint-2Dconcerning-2Dcost-2Dand-2Dbenefit-2Destimates-2Depas&d=DwMGaQ&c=hCLxfJq9j_r9eaDl3ZiMkA&r=DfviL3kRqKM743rmnIq_w-YmxYFnL0aYOTLE6qeAuxE&m=Uc7N7YGeGjwphqQD_ZtaA2CdSmEZ2aHSsF5gGLMLQTs&s=17IzgOdtgYaU36BBqwuSuoY1VPgiv8 YnpxZP-nsglVI&e=>

I would note that one of the commitments made by the EPA to the OIG was to collect better data but they made the commitment to do so in the context of a separate rulemaking (the development of an RRP rule for Public & Commercial Buildings) and that survey is currently underway. NAHB individually and as part of an industry coalition has called into question the efficacy of this effort. While the data may be useful to the residential program collecting it in the context of the Public & Commercial Buildings rule has never seemed appropriate or truly illustrative given a range of other differences between the two rules. Furthermore, the data is being collected prior to establishing a hazard for Public & Commercial Buildings.

Hey Quinn – I apologize but we are going to have to push this until tomorrow as both Tate and Sarah's schedules got backed up this morning. To play it on the safe side would you be able to do tomorrow (Friday) afternoon say 3:30 or 4:00 ET? We shouldn't run into any issues then.

Subject: Connecting you

Hey Alex!

Quinn Williams is the GC with WI DEQ and has an issue with Region 5 and Vegetation Treatment Areas (VTA's) on livestock facilities. I shared this with Sarah earlier, and she said you might be able to find a time for us three (whatever works for Sarah's calendar) to give him a call?

The best number is 608-266-1318 and I have cc'd Quinn to this email.

Quinn, are you relatively flexible this week?

For Tate's benefit, I have included a Board Member List so she will know which states/interstates are on the phone.

Substantively, I think we are pretty plugged in on what is going on with the Steam Electric Rule, the Waters of the US Rule, etc. but if there are things coming down the pipeline she thinks we need to be ready for, we would be very interested in hearing about them. I think

[redacted]

our folks would be most interested in a short discussion on how the administration views the state/federal partnership, plans for how we can work closer/better going forward, and perhaps how best states can communicate to the new administration the importance of federal investment in the federal CWA programs.

I wanted to see if you or one of your colleagues could join the ACWA Board of Directors on June 7, 2017 during their next Board of Directors meeting. It would be great if you could introduce yourself and provide a few remarks on how EPA plans on engaging with the state water quality programs during this administration. I am sure my Board members would also appreciate having the ability to ask you a question or two after your remarks.

We have a Board of Directors meeting scheduled from 1-4 PM on the 7th and can accommodate your schedule—we will just slide you into the agenda during a time that works for you.

Please let me know if this is something that you think you or one of your colleagues could participate in and what time would work best for you.

Thanks and feel free to reach out with any questions.

Location Dial-in: (b) (6) Passcode: (b) (6)

I am sorry to be a pest, but I am leaving town (b) (6) , and I won't have phone or email access from (b) (6) .

If you can spare a few minutes this afternoon or tomorrow, I would like to talk with you briefly about the case I mentioned to Mandy. If this doesn't work, perhaps we could arrange a time when the folks from Kinder Morgan could speak with you or perhaps meet with you in person while I am gone. There is some time pressure here because of the Court's briefing schedule.

The case involves a leak from a petroleum pipeline owned by Kinder Morgan (KM). The leak was discovered and repaired fairly quickly and was remediated under the supervision of the South Carolina environmental agency. There was no impact on any type of surface water. Two environmental groups (Upstate Forever and Savannah Riverkeeper) brought a CWA citizen suit against KM, alleging that KM had violated the CWA by discharging pollutants into the waters of the U.S. without an NPDES permit. They argue that a potential impact on groundwater qualifies as a discharge to waters of the U.S. because the groundwater is "hydrologically connected" to surface water, The District Court granted KM's motion to dismiss the case, in part because the judge found that any petroleum that may have made its way to the groundwater was not a discharge into the waters of the United States. The environmental groups have appealed to the 4th Circuit, which has not yet considered the "hydrologically connected" issue, so it will be an issue of first impression in the 4th Circuit.

Given EPA's effort to redo the WOTUS rule, and the potential impact that a bad decision from the 4th Circuit might have on this effort, we thought that EPA might want to submit an amicus brief in this case.

Please let me know if you have a few minutes to talk with me this afternoon or tomorrow – or perhaps time to have a conference call or meeting with the experts from Kinder Morgan next week.

Thanks,

Jeff

Sarah,

I can imagine what your schedule must be like these days, but I'd love to talk with you when you get back from Italy. I leave for a long-planned family trip on Thursday, but I could talk with you any time before then.

Thanks,

Jeff

Hi Jeff,
Great catching up for a bit. I've CC'd Sarah who is the best person to connect with on water issues and a great person to know.
Sarah, Jeff is a former AA for Air in the Bush Administration and a great ally on all that we do. I hope you two can find a time to connect.
Best,
Mandy

When you and your colleagues get back, I would love to have the chance to talk with Sara Greenwalt about the CWA case I mentioned to you. I am hoping you can make an introduction.

I am around next week and would love to talk with her -- and you, too, if you can spare the time, but I assume you're swamped with other things. I leave town on Thursday of next week, but my schedule until then is pretty flexible.

Thanks again for taking the time to talk with me. And good luck tomorrow. I will be very interested to hear how it goes.

Hi Sarah and Alex,

I had mentioned this site to you a while back, and it is ready for review.

Here's the history:

As previously mentioned, DOE's unconventional oil and natural gas Multi-Agency Collaborative (MAC) website is coming down this week due to budget issues. Web visitors looking for MAC information will find links to oil and natural gas information at other Agencies, including EPA. Last week we discussed DOE linking to EPA's hydraulic fracturing website (see: https://www.epa.gov/hydraulicfracturing). This webpage is currently public and contains cross-program information. However, some of the information on this webpage is outdated. Last Friday, I asked the program offices to review the webpage and send updates to Christine Dibble by the end of this week. However, Christine will need to make the changes and then

submit them for review and approval before the webpage is updated which may take a couple/few weeks.

The updated site for review is at the link below. You need to use your LAN id and password to get access once you click on the link.

After the site is approved, we will make it live on epa's website and then DOE can link to it.

Thanks ng

Pool Cover Industry Stakeholders

Mimi,
Thank you for the introduction.

Daris, good to meet you.

I represent a coalition of US domestic manufacturers in the swimming pool industry. Specifically, the custom manufacturer of swimming pool covers.

One of the larger firms is based in Westfield, Indiana.

This coalition has been engaged with the EPA for several years on a consumer awareness strategy regarding water conservation.

Wanted to approach your office on the idea of a public private partnership with the EPA and the cover manufacturers.

The group will be coming to D.C. On June 20-21.

I can get you more specific info under a separate cover.

Reason for the request is that the current, career staff at the EPA have had difficulty conceptualizing the idea of a P3 approach.

Wanted to see, given the Indiana angle, if your office could provide some support for the concept.

Let me know if I can provide further info and thank you in advance for your consideration.

Subject Mtg w/Rep. Glenn 'GT" Thompson & PA Crude Oil Coalition re: Zero Discharge Rule & POTW
Location 124 Cannon House Office Building

The attendees will be Arthur Stewart and David Clark (both of the PA Crude Oil Coalition), Congressman Thompson and John Busovsky.

They would like to talk about the The Zero Discharge Rule's new standards for wastewater derived from unconventional oil and gas at Publically-Owned Treatment Works (POTW). Attached is a letter previously submitted to EPA, outlining their concerns. The Department of Justice has recognized the issue and wants guidance from EPA on how to resolve the matter. My understanding is that the courts have given both EPA and industry an extension, but only until July 3rd.

Alex, would you please find some time on my calendar to talk with Nephi?

Dear Sarah,

A friend of mine, Dave Ross, and I were talking on the telephone a few days ago and he mentioned that he had a discussion with you that centered on a few questions from another agency related to watersheds and stream orders. He thought I might be able to be a resource for you if you wanted someone to bounce a few technical

details off.

Prior to joining Governor Mead (WY) I was a leader for the USDA NRCS on water and other issues. My background isn't necessarily typical for policy - soil science, geomorphology, landscape modeling, conservation and environmental planning.

I'd love to talk with you some time if it is convenient. Thank you again for the work that you're doing at EPA. It is appreciated.

Sincerely,

Nephi Cole

Paul,

It was a pleasure to sit down with you today. Please pass along my thanks to everyone for the helpful discussion. I look forward to discussing conduit theory with you guys soon. I have cc'ed Alex, who doubles as both my policy analyst and keeper of the schedule.

Alex – As Paul has indicated we are going to set up two different items on the schedule. The first is a phone call with whomever Paul deems appropriate to discuss conduit theory, and the second is a reminder to me in a few weeks to touch base with Paul on conductivity.

Dear Sarah,

Thank you very much for meeting with us this morning on conductivity and conduit theory. I will forward the regional petition on conductivity that you requested in the next few days. I'll also be very glad to follow up with you via the contact person you designate to have a call set up on conduit theory. Similarly, let's touch base over the next few weeks regarding a potential conductivity meeting with Mike Shapiro and others once you are at a place where that makes sense.

We genuinely appreciate your time today. Should you have any questions do not hesitate to call me at any time.

All the best,

EPA Contact: For an escort from Security to the meeting call 202-564-1016 or (b) (6)

Request:

As you may know, Hunt Company is one of the largest P3 partners of the federal government. They were interested in meeting with the right folks at EPA to gain a greater understanding of the execution side of the WIFIA program and where it may be moving in the future.

Subject Call with Kinder Morgan (b) (6) Code: (b) (6))
Location 3315
(b) (6) Code: (b) (6)

The case involves a leak from a petroleum pipeline owned by Kinder Morgan (KM). The leak was discovered and repaired fairly quickly and was remediated under the supervision of the South Carolina environmental agency. There was no impact on any type of surface water. Two environmental groups (Upstate Forever and Savannah Riverkeeper) brought a CWA citizen suit against KM, alleging that KM had violated the CWA by discharging pollutants into the waters of the U.S. without an NPDES permit. They argue that a potential impact on groundwater qualifies as a discharge to waters of the U.S. because the groundwater is "hydrologically connected" to surface water, The District Court granted KM's motion to dismiss the case, in part because the judge found that any petroleum that may have made its way to the groundwater was not a discharge into the waters of the United States. The environmental groups have appealed to the 4th Circuit, which has not yet considered the "hydrologically connected" issue, so it will be an issue of first impression in the 4th Circuit.

Given EPA's effort to redo the WOTUS rule, and the potential impact that a bad decision from the 4th Circuit might have on this effort, we thought that EPA might want to submit an amicus brief in this case.

Subject	Senior Leadership Council Meeting Day 1, PM only
Location	WJC-N 3rd Floor, The Green Room

Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations

and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive and invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Subject Senior Leadership Council Meeting - Day 2
Location WJC-N 3rd Floor, The Green Room

Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions.

[redacted]

Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive and invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Ryan,

That's great news, thank you. We're currently flexible after 3pm on Thursday or after 2.30pm on Friday. Would either suit you?

Ben on my team is coordinating the visit and can arrange with your office. My apologies for not getting back to you sooner.

Ryan, Mandy,

We have Nick Bridge, the Foreign Sec's Special Representative <https://www.gov.uk/government/people/nick-bridge> , and Pete Betts, the UK's Director for International Energy and Climate, in the US next week (20th and 21st). Nick is a new appointment, previously the UK's ambassador to the OECD, and this is his first senior visit to the US.

[redacted]

They have a helpful overview of the UK's position and would be excellent contacts for the EPA. I suspect a meeting with the Administrator may be a push at this notice. They've very keen to meet senior advisors in the EPA to develop an understanding of the Administrator's direction on environmental protection, energy and climate issues.

I think you both met Archie Young, who works for Pete, in the margins of the G7 Environment Ministerial. I know Archie thought you would be good contacts for them to meet. It would be helpfully timed ahead of any potential visit from the Administrator to the UK.

Please let me know if you are available on Thursday or Friday next week. Mandy, I know we can't meet until the week after, but any time you can make would be welcome.

Thanks,

Alex

Subject Meeting with the Plastics Industry Association - Call in (b) (6) ; Code: (b) (6)
Location 3500 WJCN

Thank you for the introduction and welcome. The Plastics Industry Association (PLASTICS) and members of its EHS+ Committee are very much looking forward to meeting with members of EPA's Office of Policy team. This is particularly timely given last Thursday's release of the Unified Agenda.

Implementation of the amended TSCA remains a key issue, and a key theme is EPA resources. Below is a list of other important issues for our members (neither all-inclusive nor prioritized) that will also be discussed with additional Agency offices. We'd like to focus on specific actions EPA could take that would be most helpful to our industry and that would not require changes to regulations, as well as discuss how we might address challenges that may require regulatory changes with notice and comment.

Chemical Substances

- Implementation of the amended TSCA

- TRI reporting

Air

- Ways to streamline permitting processes to help compliance assistance and reduce burdens for both regulated entities and permitting authorities

- Revisiting concepts of flexible air permitting, netting and debottlenecking, reporting frequency

- Leak detection and repair monitoring requirements for connectors

- "Once in, Always in" Policy for MACT standards

- Routine maintenance repair and replacement under NSR

- Commencing construction and beginning actual construction under NSR

- Project aggregation rulemaking (PSD and NSR)

- Air quality modeling analysis and monitoring requirements

Water

- Ways to streamline permitting processes to help compliance assistance and reduce burdens for both regulated entities and permitting authorities

- Pelletized and solid resins and wax under the SPCC component of EPA's oil spill prevention program

- Synthetic Organic Chemical Manufacturing Industry (SOCMI) wastewater proposal of 1994, amended in 2004

Waste

- Petition for review of the Hazardous Waste Generators Improvements Rule, and potential options

- CERCLA Superfund challenges to advancing rehabilitation

Subject Biological opinion update
Location 726 Jackson Place, the White House Conference Center

Due to the expected turnout, we will be moving the meeting to the Lincoln Room at the White House Conference Center. The White House Conference Center is located at 726 Jackson Place, right next to CEQ, and does not require any preclearance. You will need to bring your ID. We will have a staffer bouncing between the Lincoln Room and the entrance to the White House Conference Center to try to make sure everyone gets in without incident.
For those of you who cannot attend the meeting in person, below are all the conference line details:
Participant Dial-In: (b) (6)
Participant Code: (b) (6)

Thank you for working with us and I look forward to seeing everyone tomorrow. My direct line is (b) (6) - please don't hesitate to call.
Chris

Feel free to forward to others in your offices.

I will update the invite with call-in information sometime next week. In the meantime, feel free to call me at (b) (6) if anything comes up.

Below is my original invite:

Hey everyone,

If I don't already know you, my name is Chris Prandoni and I am the Associate Director for Natural Resources over here at CEQ. Included on this email are EPA, FWS, Commerce, and USDA representatives. Since there are a lot of new faces in town, myself included, I have spoken to either you or someone else at your agency about the desire for the Services to update the rest of the federal family on the biological opinions for chlorpyrifos, malathion, and diazinon.

The idea would be for FWS and NMFS to take about 20 minutes each to explain the status of their opinions and then open it up for questions. I know this is a quick turnaround, but ideally we could all get together at CEQ's office in Jackson Place 730 next Tuesday (7/25) or Wednesday (7/26). If you are unsure about whom within your agency to invite to this meeting, there should be someone from your agency copied on this email who can help you identify the correct people to coordinate with.

Since there are a lot of moving parts, whenever an agency identifies a window that works for their team, feel free to propose that time or window to the group. Of course feel free to call me with any questions you may have. My direct is (b) (6)

Thank you very much; look forward to working with all of you.

Chris

Hi Wendy,

Hope you're well. I wanted to touch base on some of the issues discussed at dinner a few weeks ago, especially as we look at planning our Japan trip. I've also attached the one-pager we discussed on Mercury issues. I'd love to chat when you have a few minutes.

Also, Mandy will likely be getting in touch with you soon on the automobile executive order.

TO: Travelers & Travel Preparers

This memorandum serves as a request to all travel preparers and all individuals who travel with the Administrator to attend Mandatory Travel Training this Wednesday and Thursday. You will be required to attend one of the two training sessions. The sessions will be from 10:00AM to 3:00PM on Wednesday, August 16th and Thursday, August 17th in room 3530. Each Travel Training session will be split into two segments, morning and afternoon. If you cannot attend one or both of the segments on Wednesday, you must complete the segment(s) during Thursday's session.

Time 8:30 AM – 9:00 AM
Subject Call w/ Australian Embassy
Location 3315D Call 202-797-3015 (Jaeson's direct)

The main purpose of the call is to make sure the Administrator's trip goes smoothly, so any advice/tips from Mandy and Sarah would be helpful. I can also answer questions they might have. And then more broadly I'd like to touch base to get a sense of the Administrator's priorities for the EPA, where it relates to international activities. I used to meet occasionally with Mandy in her old job so it's kind of a continuation of that discussion.

Also just so we don't cross any wires, I should let you know Mark Kasman has been very helpful in keeping the embassy here informed of the upcoming trip as he works with my colleagues in Australia as well as the US Embassy in Canberra.

Jaeson

Subject APA Roundtable: Judicial Review
Location 3500 WJCN

Samantha and Brittany have expressed an interest in learning more about the Administrative Procedure Act (APA) in the context of rulemaking. They and Justin Schwab decided to organize a very informal APA Discussion Group or Roundtable for this purpose. The first meeting will focus on Judicial Review and what courts look for in upholding or invalidating a rule or other agency action. At the end of this meeting, participants will identify the topic for the next Roundtable.

Yes, here is the response from Ron Jordan in OW:

This company hasn't participated in the ELG rulemaking. Their website indicates their focus is largely in the steam generation and electrical generation equipment, as well as air pollution control equipment such as ESPs, fabric filters, SCRs, and SO2 scrubbers.

Hi Alex,

I appreciate hearing from you and hope you had a good weekend. Thanks for being flexible with the schedule. Any of the times you suggest would work for me. Let me know what would work best for her, and I am happy to accommodate her schedule.

We would like to touch base on the process going forward regarding the reconsideration of the 2015 Effluent Limitations Guidelines for Steam Electric Power Generating Point Source Category.

Please, let me know if there is anything else you'd need from me to schedule this call. Best,

Subject: confirmed - Recent Circuit Court Decision on SNAP

Hi Mandy,

I am happy to confirm the 1:00 tomorrow, Thursday, August 31st meeting on the SNAP decision. Thank you again for getting us in so quickly. The attendees will be:

Joe Trauger, AHRI, Senior VP of Policy and Government Relations

Kelley Raymond, AHRI, Director, Government Relations

Deirdre Stach, Mercury, Senior Vice President

We are in the process of seeing if there may be another addition to this list. As so many of the senior staff are on vacation right now, would it be possible for a call in?

I understand that we should come to the North Entrance of EPA and ask for you. If there are any changes to those directions please let me know.

Thank you again and looking forward to our conversation tomorrow.

Mandy-- What is EPA's general time frame on deciding its next steps on this? I want to make sure our suggested mid-September time frame for a meeting would not be too late for effective AHRI input regarding whether to appeal, etc.

Subject: Re: Recent Circuit Court Decision on SNAP

Thanks so much for being so helpful and responsive, Alex. In order to first hear from all of its members, AHRI would prefer a meeting mid- or late-September, ASSUMING EPA will not be making relevant decisions before then. Mandy--Is that any danger?

If not, let's reconnect near Labor Day regarding scheduling, Alex.

Subject: Speaking request

Kevin,

I wanted to follow up on Pruitt's schedule during our Oct. 4-6 Fly-In per our discussion. We still have two times that would work well for us.

Who we are? Forest Resources Association- We represent the whole industry supply chain from the Woods to the Mill. (I.e. Loggers, Truckers, Mills, International Paper, Landowners, and more.) WOTUS repeal and regulatory rollbacks are big for our industry.

The times we would be looking for are-

Oct 4th- between 7:15 and 9pm at the Capitol Hill Club
October 5th either Breakfast 7:00AM - 8:30AM or Dinner 6:30PM – 9:00PM at the Phoenix Park Hotel
October 6th during our board meeting 11:00AM -1:00PM(this would be a smaller group) 30-40 people.

Thanks for helping.

East Chicago residents raise issues with pipe replacement plan

Post Tribune, Craig Lyons Sept. 29

Residents are pushing East Chicago to explain its process for replacing lead service lines after people found dirt was being left exposed in the Calumet neighborhood.

Advocacy groups are seeking clarity from East Chicago about its lead service line replacement program after hearing concerns about the

limited extent of the work and if it's being done in a way that prevents additional exposure to lead and arsenic in the soil.

The East Chicago Calumet Coalition Community Advisory Group raised questions with the city, U.S. Environmental Protection Agency <http://www.chicagotribune.com/topic/environmental-issues/u.s.-environmental-protection-agency-ORGOV000048-topic.html> and state about the lead service line replacement process and soil that's being dug up and left on the ground, as residents are concerned that material is contaminated.

"This is problematic because residents do not know whether the excavated soil is contaminated and to their knowledge nothing is being done to test that material or characterize the material for waste-disposal purposes," the group wrote in a letter to the city.

East Chicago Mayor Anthony Copeland said in a statement that the city and its contractors are in compliance with all the guidelines and regulations from the Indiana Department of Environmental Management and the U.S. Environmental Protection Agency.

"Even though the EPA has not required it, the city is requiring that all dirt, sand and concrete be placed in separate metal dumpster containers, and all material tarped over," Copeland said. "In addition, the city is investigating the possibility of relining the service line pipe, which is far less intrusive since it does not require any excavation and can be done with less inconvenience to the homeowner."

Starting in September, the city began replacing lead service lines, which connect the main to residents' homes, in an effort to better protect people from potential lead exposure through the water. The city has said the process will take time, with a target of completing work at 400 homes by May.

The city is starting with service lines replacement in the Superfund site, according to an email, and doing work elsewhere in the city following other construction projects. The city is replacing all the existing pipe, according to an email, and not simply lining the pipe.

The Natural Resources Defense Council asked that the pipe replacement is expanded to the entire city as it is estimated 90 percent of East Chicago homes have lead service lines.

"Given the cumulative exposures of lead and other toxic chemicals faced by the entire community, we believe that a commitment to replace all the lead service lines in the city should be made," Anjali Waikar and Meleah Geertsma, of the NRDC, wrote to the mayor.

The city has said citywide pipe replacement will happen as funding is available, according to an email, and is starting with a focus on the Superfund site.

The NRDC joined the community advisory group with raising concerns about potentially contaminated soil being exposed during the pipe replacement.

The group is asking that the city provide sampling data to show the material is not contaminated and not putting residents and the

neighborhoods at risk.

"The city also should address how it intends to handle soil (including at properties located outside of the Superfund site) that may be disrupted by the lead service line replacement process, particularly given recent concerns regarding the handling of soil during the service line replacement process at sites located on the USS Superfund site," Waikar and Geertsma wrote.

The EPA, in a letter to the community advisory group, said its sampling data and analysis show that the yards where the pipes are being replaced this year did not show any signs of contamination. The EPA added that the soil being dug from beneath the roads or sidewalks have not shown elevated levels of contamination.

"If East Chicago asserts that the soil is not contaminated, it must share with the residents and the public at large the sampling data or other information for each section of street involved that supports that conclusion," the group wrote. "To the extent that East Chicago has any uncertainty regarding the safety of the soil, we urge you to swiftly contain the excavated soil and immediately commence testing adequate to characterize the soil, with the assistance of state and federal agencies if necessary."

Subject: [EXT] Dewey-Burdock Draft Permit

Hey Eric,

I previously emailed with Matt Konenkamp in Governor Daugaard's office and told me you would be the best point of contact to speak with on the Dewey-Burdock Class III Injection Well Draft Area Permit.

Would you be available for a call next week to discuss? There are some general aspects of the permit that would be helpful for us to have a discussion on and that you may be able to provide more clarity to. If so, next Thursday or Friday would be great.

Best,
Alex

Subject: Challenging Nutrients Coalition: Potential interagency policy heads-up meeting?

Lee, Mike, Benita,

Hi. As Jeff Lape may have conveyed, last week Denice Shaw (from the ORD Innovation team) briefed Richard Yamada on the status of a variety of open innovation technology challenges related to nutrients in water. These actions are part of a very well-functioning interagency/state/industry/NGO collaboration ("Challenging Nutrients Coalition"), advancing the goals of the America Competes Act. The purpose of the briefing is to inform/engage EPA political appointees prior to briefing interagency politicals and getting them up to speed on what the staff are doing on innovative nutrient management and reduction technologies.

THE ASK: ORD would like to brief you on the status of these challenges, as a prelude to hosting the interagency political/senior staff to update them on progress and enlist ongoing support. If you are OK with this, we will ask schedulers to set up a half hour in the near future.

Thanks

Bruce D. Rodan

Hello Everyone,

This will be our first coordination call between EPA and Embassy/Rabat in the lead up to Administrator Pruitt's mission to Morocco. I hope I included all of the correct people in the addressee list. Please forward this invite to anyone I may have missed.

I've attached the most recent draft itinerary for the mission for your background. We look forward to speaking with you tomorrow.

Thanks,

Cam

Dear Brandt,

It was a pleasure meeting you last October 27. Mark, Sarah, Milan and I appreciated the comprehensive tour and our conversation about innovation, entrepreneurship and the lab capabilities. I would like to have a call with you this week if possible to explore in more detail how we could design a visit/activity at the FabLab during our CEC Council Ministerial in 2018. Our Secretariat is visiting OKC and Norman this

Dec 4-5 to further consider venues and I would like to flesh out some detailed ideas with you before they deploy.

We mentioned to you that we are launching a Youth Innovation Challenge in advance of the Council Session and expect to select three winners (one each from Canada, Mexico, US) that would be announced at the Council Session. Also, the theme of our Council Session is Innovation and Partnerships for Green Growth and the lab seems to be at the forefront of such a topic (I anticipate there is green innovation in the works as well?).

If you are available, I would like to explore ideas for an event that would engage the Ministers and our delegations (up to 80 officials) in an interactive dialogue/exercise on innovation, technology, sustainability/environment. It could involve our 2018 challenge winners, explore how to mentor or enhance their concepts, or pursue a completely novel approach to environmental protection and sustainability looking at trilateral perspectives (perhaps how policy drives or affects technology and how technology drives or affects policy; or we could learn about what innovation your students are testing and explore their linkages to environment and sustainability). I think the key is youth engagement, innovation, and showcasing this to the Ministers and I would like to explore ideas with you.

Subject WJCN 2530
Location Training for Active Shooter Preparedness

AO Colleagues,

Please plan on attending EPA's Active Shooter Response Training on Thursday, December 7th in WJCN 2530 starting at 9:00 AM.

It's important to prepare for a possible active shooter situation by locating the primary and alternate exits closest to you and walking through your work area to identify:

* Potential hiding places that provide cover (ballistic protection) and concealment (shooter cannot see you).
* Items nearby that could improve cover/concealment.
* Ordinary office items you could use to defend yourself against an attacker/active shooter.

You are strongly encouraged to review the Occupant Emergency Plan (OEP) for the building where you work; please visit the HQ Security in the Workplace (b) (6) [redacted] ntranet site to access the OEPs for Headquarters buildings. More information can be found on the Active Shooter Response and Preparedness
(b) (6) [redacted]
(b) (6) [redacted]

Remember, during an Active Shooter event, you have three options based on where you are when you hear shots fired:

1. RUN: evacuate.
2. HIDE: seek cover and concealment.
3. FIGHT: take aggressive action.

If you have questions, please contact Bill Bellerose, HQ OEP Program Manager, at 202-566-2191 or bellerose.william@epa.gov <mailto:bellerose.william@epa.gov> .

Proposed agenda:

I. Roll call

II. Review status of action items from previous calls

Action items:

1. Provide Embassy with the delegation list (names, titles, credit card information) – Millan: the delegation is still being decided; she expects to be able to provide the list by our next call (12/18)

* Notify delegation they need official passports and visas for travel to Japan – Millan

2. Confirm dates of January 16 – 19 for advance – completed

3. Develop itinerary for advance – EPA requests Embassy draft a proposed itinerary based on availability of MOEJ/METI and others

4. Provide Embassy with flight information for each of the delegates (including advance) – Millan

5. Make reservations at Imperial Hotel – Embassy completed; need names and arrival/departure to associate with reservations

6. Develop fund cite (vehicles, interpreters, other) – EPA security and Embassy will be able to determine the costs once the agenda is set; OITA will then be able to prepare the fund cite

* Establish vehicle needs – EPA security

* Determine overtime and other costs – Embassy

7. Connect Embassy RSO with EPA security – completed; EPA security lead (b) (7) (f) has been replaced by (b) (7) (f)

8. Connect EPA press officer Kelsi Daniell with Embassy press officer Mike Chadwick – completed

9. Check Ambassador's availability for dinner with Administrator on Sunday, January 21 – Embassy reported that the Ambassador invites the Administrator +4 for breakfast at his residence on Monday, January 22 instead, leaving Sunday free as a rest day.

10. Confirm Administrator's interest in site visit to Yokohama coal fired facility (in conjunction with TEPCO LNG power station and port) – Sarah will confirm tomorrow (12/12)

11. Coordinate with MOE and METI to schedule meetings – Embassy in progress

13. Flesh out mercury event – OITA to draft concept note

14. Check Administrator's interest in attending a sumo wrestling event – Embassy reports that tickets are sold out

15. Jane and Sarah recently met with MOEJ at UNEA:

* they indicated that they would likely raise climate change, carbon storage/capture and energy, hydrogen;

* the new Minister would like to review any statements (a "zero draft statement") that were developed as a result of the June meeting between Administer Pruitt and the previous Minister; and

* they are interested in media in addition to a photo spray.

16. In response to above, EPA suggested the Embassy float the idea of a "signing ceremony" of a new joint statement, which may include environmental technology as a new area of cooperation.

Hi Nick...David King, CEO, and Mark Dyos, President, will be in DC on Monday and half of Tuesday. When's a good time for me to swing them by your office to meet with you and Kell...and your water people. 30 min max...

You're going to want to see this stuff explained to you. It's a game changer, brother.

From NBCC

The NBCC has been engaged with Colombia for a number of years in various initiatives. All the activities were generally conceived to pursue solutions for conflict resolution. The country was in civil war for over 50 years. It is largely a conflict between the government and the guerillas. The philosophical differences skewed as the narcos society gained influence and began financing, in opposition to an idealistic democratic society. As the peace negotiations progressed it was deemed necessary to offer alternative life styles for sustenance. People who had been paid to fight now needed to be able to live if they laid down their weapons. Historically, funds intended for this sector of economic development never made it to the affected areas. These areas are largely indigenous and Afro descendants in the Pacific Coast areas largely made up of the expanded Valle del Cauca department making up the majority of the Pacific Coast of Colombia. These are black areas with heavy presence of guerillas well-funded. The government has not recognized these areas with any support for many years. That is now slowly changing.

[redacted]

The US government has been providing various sorts of aid and now seeks to insure optimal utilization of these funds. One source has been USAID. Attached you will see a grant RFP, that was awarded to the International Organization for Migration (IOM). The NBCC is finalizing our participation by providing entrepreneurial development.

Project Summary

[redacted]

The scope of this proposal considers the development of one of the strategies of IPA (Inclusion for Peace Activity), which consists of moving forward in the mobilization of innovative processes that allow Afro-Colombian communities to solve problems of exclusion, such as access to markets, inclusive businesses and platforms of empowerment for commercial and financial activity. The present proposal seeks to establish the improvement of the commercial relations of the producer organizations that the program has been promoting and those that have been created with the support of USAID for the approach to the markets promoted by the African Diaspora for Latin America especially in Colombia, taking advantage of the different trade agreements between countries and the linking of diasporic processes that the Afro-American and Afro-Latin American organizations have been building, from the political and cultural agenda and now with the interest of advancing in the alliance of economic and commercial. In this way, it is intended to create opportunities for business expansion, incubation of initiatives and acceleration of business processes with the members and affiliates of the Corporation Afro-American Chamber of Commerce and the Black Chamber of Commerce of the United States -NBCC.

Colleagues,

Since we haven't done one of these in a while and have lots of new staff, I thought it'd be nice to schedule some time to all get together. Please forward along to anyone I missed and hope to see many of you there.

Thanks!

Where: EPA Headquarters, U.S. EPA Rachel Carson Green Room (1200 Pennsylvania Avenue NW)

Guests,

Please be advised of a slight time change for the Ceremonial Swearing-in of Matt Leopold as EPA's General Counsel on Monday, February 26, 2018. The ceremony is now scheduled for 12:00pm. in the EPA Headquarters, U.S. EPA Rachel Carson Green Room (1200 Pennsylvania Avenue NW). There will be a reception to follow.

Directions for Guests: EPA's address is 1200 Pennsylvania Avenue, NW. Please enter through the William Jefferson Clinton South building. If you are coming by taxi/vehicle, you want to be dropped off on 12th Street NW, between Pennsylvania and Constitution Avenue. The entrance is almost exactly halfway between the two avenues next to the Federal Triangle Metro sign and with the Trump Hotel across the street. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your right. This is the South Lobby entrance to the William Jefferson Clinton building. If you are coming by Metro, exit at

the Federal Triangle Metro station, go up the escalators and the South Lobby entrance will be on your left as you exit at the top of the escalators.

Once inside the building, security will prompt you to scan all items such as bags, coats etc.. Please let the guards know that you were instructed to call Carla Veney or Monique Patrick on 564-8040 or 564-8064 to escort you to Matt Leopold's swearing in ceremony. Security will have the visitors passes for everyone.

Allow for 10-15 minutes to get through the process.

EPA Employees: Please bring your ID to show to security at the entrance to the Green Room.

Please rsvp to Carla Veney via veney.carla@epa.gov <mailto:veney.carla@epa.gov> by Feb. 22.

Thank you!

Subject Fundamental Classification Guidance Review Briefing - EPA Originally Classified Documents
Location Ronald Reagan Building Room 31204 - OITA Secure Conference Room
Update:

Attached is additional briefing material for the 10am meeting on Monday. The meeting is being held in a room that will allow for classified discussion, if needed. Therefore, electronic devices will be collected from you prior to entry.

If you have any questions please email me at glazier.kelly@epa.gov <mailto:glazier.kelly@epa.gov> or call 202 564 0351.

Executive Order 13526 mandates agency heads complete the Fundamental Classification Guidance Review (FCGR), a comprehensive review of the agency's classification guidance, on a periodic basis. The

Information Security Oversight Office's (ISOO) March 17, 2016 memorandum gave EPA, and other designated agencies, until June 30, 2017 to complete the FCGR. EPA completed the FCGR, and provided a response to ISOO, on June 27, 2017. As a result of the FCGR, EPA identified subsequent classification actions necessary for EPA's original classification authority (OCA), the Administrator.

A working group of agency subject matter experts was created to analyze EPA's eight originally classified documents and make recommendations on their classification status. At EPA, only the Administrator/OCA can take a classification action. Before the subject matter experts present their recommendations to the Administrator, Chief of Staff Jackson requested that you be briefed on the recommendations so that you are positioned to advise the Administrator on this matter.

Attached is an unclassified list of the eight documents and the working group's recommendations for each. At this briefing, the subject matter experts will explain the rationale for each of their recommendations. Additional briefing material will be available in advance of the meeting. The eight originally classified documents will be available at the meeting.

If you have questions in the meantime, please contact me at glazier.kelly@epa.gov <mailto:glazier.kelly@epa.gov> or 202 564 0351.

Subject 12:00pm Eat-In Lunch with Ken Wagner and Sarah Greenwalt and ADEQ

Location ADEQ, 1110 West Washington Street, 6th Floor, Conf. Room #6100B, Phoenix, AZ 85007

Hi Mr. Wagner and Ms. Greenwalt, Rito's Mexican Food is authentic Mexican food and a favorite at ADEQ; however, it is not conducive for a sit-down lunch meeting. If this is ok with you, you can look over the menu and we will pick up lunch and have it ready to eat here in conf. room #6100B. Please review their menu at http://www.ritosmexicanfood.com/ <http://www.ritosmexicanfood.com/> . If you would prefer to do something else for lunch, we will be happy to do that as well. Everyone, please email Ousley.tara@azdeq.gov <mailto:Ousley.tara@azdeq.gov> your lunch order by 10:00 am on Monday if you would like to attend the lunch. Thanks so much, Tara

Now that Spring has decided to arrive in Washington, let's gather again! Please share with colleagues - the more the merrier, of course.

Subject	Meeting with Stephen Lucas, Canada's Deputy Minister for Environment and Climate Change
Location	WJC-N 3412
	Sct: Carly Carroll, 564-2769

Stephen Lucas, Canada's Deputy Minister for the Environment and Climate Change, is planning to travel to Washington D.C. later this month to do outreach on Canada's G7 priorities as well as meet with key counterparts with respect to our bilateral relationship on environmental matters.

We are interested in setting up a meeting for the Deputy Minister with Deputy Administrator Wheeler. This would be an opportunity for them to have an initial discussion and discuss files of mutual interest for their shared portfolios.

We are also interested in setting up a meeting with Sarah Greenwalt focused primarily on G7.

DM Lucas's calendar has openings for a one day trip with May 14, 16, 17 or 18 at this point, and we would very much appreciate your support in getting feedback on openness/ interest at EPA to these meetings, and if any of these dates do not work/ work better for EPA.

Subject Canceled: PFAS Summit Follow up
Location Dial in #: (b) (6) Conf Code: (b) (6)
Making this a reoccurring appointment.

Adding an agenda for our call this morning.

Rescheduling a follow-up call per discussion last week. Please let me know if anyone else needs access to the PFOA PFOS Roadmap on SharePoint.

POC: Becki Clark, OEM
Scheduler: M. Indermark, 5/30

The purpose of this meeting is to organize our effort and development of briefing materials for the Administrator on adding PFOA/PFOS (PFAS?) to the CERCLA hazardous substance list. We believe the attached document, written by OECA, is a good starting point.

Please free to forward this on to anyone else you need or want to attend.

5/23 News Release: Administrator Pruitt also announced four actions EPA will take following the summit:

* EPA will initiate steps to evaluate the need for a maximum contaminant level (MCL) for PFOA and PFOS. We will convene our federal partners and examine everything we know about PFOA and PFOS in drinking water.
* EPA is beginning the necessary steps to propose designating PFOA and PFOS as "hazardous substances" through one of the available statutory mechanisms, including potentially CERCLA Section 102.
* EPA is currently developing groundwater cleanup recommendations for PFOA and PFOS at contaminated sites and will complete this task by fall of this year.
* EPA is taking action in close collaboration with our federal and state partners to develop toxicity values for GenX and PFBS by this summer.
