Newport, NC 28570

The Georgetown University School of Medicine, on behalf of Owens-Corning, will be conducting a survey to gather information related to the health history and work experience of former employees of Owens-Corning. We are asking you to assist in this effort because records indicate that you may be able to provide information about a relative who worked at Owens Corning.

In the near future, one of our interviewers will call you to administer an interview. The interview will be conducted by telephone and will take approximately 30 minutes. The interviewer will ask you questions about where your relative lived, working experience in addition to Owens-Corning, health history, smoking and alcohol consumption. If the interviewer calls at a time that is not convenient, you may schedule a time for someone to call you back.

Your participation in this study is completely voluntary and information you provide will be kept strictly confidential. Your information will be grouped with other responses for statistical purposes for analysis and no identifying information will be provided in any reports or publications resulting from this interview.

I would like to extend my sincere thanks to you for participating in this interview. If you have any questions, please do not hesitate to contact me, collect, at Georgetown (202-687-4758, Monday through Friday from 9:00 a.m. until noon), or you may call Dr. William Fayerweather, collect, at Owens-Corning, (419-248-6460).

Sincerely,

Leonard Chiazze, Jr., Sc.D.
