Cincinnati, Ohio

Dear Dr. Kehoe:-

I regret the delay in replying to your letter with the enclosure of reprint orders. I have been out of the office for about three weeks with the grippe, and am still working at home. Mr. Drinker is out of town on Maritime Commission business, so I am running the Journal under difficulties.

The articles are to be bound together and published as a symposium, making up the February number. I think it is an excellent idea to have the reprints bound together also, and I will suggest it to the head of the Waverly Press. If he does not wish to do this, however, and prefers to have them separate, your order for separate reprints will be filled as you directed. I will ask him to let me know as soon as possible what he plans to do, and I will then write you at once on hearing from him. I think by this time you should have received the remaining galley-proofs of your articles, as I have received duplicate copies here.

I am very grateful to you for your courtesy in attending to the various matters of detail which I asked you to do. I hope very much that the articles are printed to your satisfaction.

Cordially yours,

Margaret S. Perry
