**DEFENDANT CELANESE LTD.'S OBJECTIONS AND RESPONSES TO  
PLAINTIFF MARLIN A. TUCKER'S  
FIRST SET OF INTERROGATORIES, REQUESTS FOR PRODUCTION AND  
REQUESTS FOR ADMISSION**

TO: Plaintiff Marlin A. Tucker, by and through his attorney, Stephanie Finch,  
BARON & BUDD, The Centrum, Suite 1100, 3102 Oak Lawn Avenue, Dallas,  
Texas 75219

Pursuant to the Texas Rules of Civil Procedure (the "Rules"), Defendant Celanese Ltd. ("Celanese") submits these Objections and Responses to Plaintiff Marlin A. Tucker's First Set of Interrogatories, Requests for Production and Requests for Admission Propounded on Premises Defendants [sic] Celanese Ltd. as follows:

**GENERAL RESPONSES, OBJECTIONS AND ASSERTIONS OF PRIVILEGE**

Celanese makes the following general objections to each and every request and interrogatory directed to it:

1. Celanese objects to the interrogatories and requests to the extent that they seek to compel the disclosure of information specifically exempted from discovery by the privileges afforded in the Texas Rules of Civil Procedure ("Rules") and Article V. of the Texas Rules of Evidence, including the attorney/client privilege, the joint defense privilege, the attorney work product doctrine, or the investigative privilege. Any withholding of

documents or information on the basis of privilege will be specifically noted as part of Celanese's objections and responses after the discovery request calling for such privileged information and/or documents, if any.

2. Celanese objects to these discovery requests in that they are premature. Plaintiff has, thus far, failed to provide discovery responses or information indicating the history, timing, or nature of his alleged work and asbestos exposure at any Celanese facilities, other than the vague allegations contained in Plaintiffs' First Amended Asbestos Petition. Thus, these requests at present are overly broad, unduly burdensome and harassing. Celanese reserves the right to supplement and/or amend its responses as discovery progresses and plaintiff provides sufficient information to enable Celanese to do so.

3. Celanese objects to any discovery request seeking to charge it with knowledge or information held by its "predecessors or subsidiaries" or requiring it to provide information regarding plants other than the ones at which plaintiff Marlin A. Tucker allegedly worked, to wit, the Celanese Bay City, Texas and Deer Park, Texas facilities (to the extent plaintiff alleges he worked at a Celanese "Bay Port, Texas" facility, see paragraph 12, below). Celanese operated multiple facilities and employs thousands of workers. Accordingly, it is unduly burdensome, excessively expensive and harassing to require Celanese to answer these discovery requests as to all plants, and/or any plant at which plaintiff never worked.

4. Celanese objects to plaintiff's discovery requests to the extent they are unlimited in time.

5. Celanese objects to Plaintiff's requests to the extent that they necessarily seek disclosure of trade secrets, proprietary material and other confidential information protected from discovery by the Texas Rules of Civil Procedure.

6. The presence of an objection does not mean that Celanese possesses non-privileged information responsive to a discovery request.

7. Celanese objects to plaintiff's Instruction No. 1. Celanese may produce non-privileged responsive documents in the manner in which they are kept in the ordinary course of business.

8. Celanese objects to paragraph one of the DEFINITIONS regarding "Defendant," "You," "Your," and "Your Company" and paragraph three regarding "persons" because they are overly broad and unduly burdensome and pertain to corporations other than those that are parties to this suit. Celanese also objects to paragraphs one and three because they include Celanese's attorneys; information and things protected by the attorney client privilege and work product doctrine are not discoverable.

9. Celanese objects to paragraph two of the DEFINITIONS because the definition of the word "document" and the instructions regarding "possession, custody or control" are overly broad, seeks information specifically exempted from discovery by the privileges afforded in the Rules and Rule 503 of the Texas Rules of Evidence, including the attorney work product doctrine, and the attorney client privilege because it exceeds the scope of Rule 192.3 of the Rules. Throughout these responses, Celanese will assume that the word will have its commonly used meaning, as set forth in Rule 192.3(b), and will respond accordingly.

10. Celanese objects to paragraph six of the DEFINITIONS to the extent information is sought concerning asbestos in a non-friable form.

11. Celanese objects to the definitions of "identify" contained in paragraphs 16 and 17 of the DEFINITIONS because they are overly broad, unduly burdensome and harassing.

12. Celanese objects to the definition of "Defendant's Premises at Issue" contained in paragraph 18 of the DEFINITIONS because it is presently vague, ambiguous and overly broad. Per plaintiffs' most recent petition, one of the facilities at which Plaintiff allegedly worked is purportedly located in "Bay Port, Texas." Given the present pleading and discovery record, Celanese is unable to determine which of its facilities, in addition to the Bay City and Deer Park plants, are at issue. Celanese never owned or operated any facilities in any city known as "Bay Port, Texas." If, in fact, plaintiff did work at an additional Celanese facility somewhere in the Texas Gulf Coast vicinity, it could have been one of several different facilities. Without more information from plaintiff and further discovery, Celanese is not in a position to know all the facilities to which these discovery requests and the phrase "Defendant's Premises at Issue" potentially relate, and Celanese will not attempt to guess.

13. Celanese objects to the definition of the term "Time Period at Issue" contained in paragraph 21 of the DEFINITIONS because it is presently vague, ambiguous and overly broad. To date, plaintiff has failed to allege any time period during which he alleges to have worked at a Celanese facility. Accordingly, the term "Time Period at Issue" cannot reasonably be given any meaning. Celanese further objects to the alternative

definition of the term "Time Period at Issue" given by plaintiff because it is overly broad, unduly burdensome and harassing.

14. Celanese objects to DEFINITIONS contained in paragraphs 18 and 21 to the extent they would require Celanese to provide information regarding a premises Celanese did not own and a time period during which Celanese was not the owner of the premises at which plaintiff claims to have worked. Notwithstanding plaintiff's allegations that he worked at a Celanese Deer Park facility, Celanese did not own a facility in Deer Park, Texas prior to April 5, 1956, or after November 19, 1974. On November 19, 1974, Celanese sold the Deer Park facility to Soltex Polymer Corporation, which assumed all liabilities. Celanese therefore has no information or documents pertaining to that facility after the sale to Soltex.

### **SPECIFIC OBJECTIONS**

Each of the following specific responses and objections incorporate by reference the above-stated general responses, objections and assertions of privilege. Subject to the foregoing, Celanese specifically responds as follows:

### **ANSWERS TO INTERROGATORIES**

#### **INTERROGATORY NO. 1:**

For each person who has supplied any information used in answering these interrogatories, or who assisted in identifying, locating or retrieving documents responsive to Plaintiff's Request for Production, identify such person and include the length of time employed by Defendant or other employer, and a year-by-year list of all other positions, titles, or jobs held.

**ANSWER:**

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
2. The words "supplied any information" are vague and ambiguous; and
3. It is overly broad and unduly burdensome.

Subject to these objections, the information contained in these responses is derived from corporate documents, copies of which have previously been produced or will be produced, and also supplied by former employees of Celanese, whose identities are or will be disclosed in Defendant's Rule 194.2(e) Disclosures.

**INTERROGATORY NO. 2:**

As to each of the following, please state the first year you first became aware, what you learned, and how Defendant learned that humans who inhale asbestos fibers can contract

1. asbestosis
2. lung cancer
3. mesothelioma

**ANSWER:**

Celanese additionally objects to this interrogatory because it is vague and ambiguous.

Subject to these objections, Celanese states that it cannot say with any certainty the first year any one of its employees first became aware of a health risk potentially associated with asbestos exposure, or how such information may have been acquired.

**INTERROGATORY NO. 3:**

Please list all trade organizations, trade associations and any other industry-wide groups to which you belong(ed) (specifically including but not limited to the following groups: American Hygiene Foundation, Industrial Hygiene Foundation, Chemical Manufacturer's Association, American Chemical Council, American Petroleum Institute, Texas Chemical Council, Ohio Safety Congress, National Safety Council, Asbestos Information Association, Industrial Medical Association) in which information or documents relating to asbestos was discussed, disseminated, or published (including, but not limited to, the effects of exposure to asbestos, industrial hygiene measures relating to asbestos

dust, and medical information or research relating to asbestos or its effects on animals or humans, populations at risk). As to each such group, please state:

- a. the inclusive dates of your membership and
- b. identify Defendant's employees or former employees or representatives who attended any of the meetings held by each organization, and
- c. the meetings they attended, and
- d. if any individuals employed by Defendant or representing Defendant were members of committees or subcommittees of any such organizations, (such as, e.g., a medical advisory committee or legal committee), identify the committee or subcommittee on which such individual served and the position occupied on the committee, if applicable.

**ANSWER:**

Celanese additionally objects to this request because:

1. It seeks information that is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence; and
2. It is overly broad, unduly burdensome and unlimited in time.

Subject to and without waiving these objections, Celanese has, at various times, been a member of:

National Safety Council – Start date unknown (known to be a member in the 1960s) to present.

American Industrial Hygiene Association – On present information and belief, Celanese states that individual employees of the company have been members of AIHA since at least the 1970s. Discovery is ongoing and Celanese will supplement this request when and if relevant and responsive information is identified.

Chemical Manufacturers Association – 1930s (exact year unknown) to present.

Texas Chemical Council – Start date unknown (known to be a member in the 1970s) to present.

Industrial Hygiene Foundation – 1952 to 1976.

Celanese further states on present information and belief that it was never a member of the American Hygiene Foundation, the American Petroleum Institute, the Ohio

Safety Congress, the Asbestos Information Association or the Industrial Medical Association.

Of those various trade organizations of which Celanese was a member, Celanese presently lacks sufficient information to identify which, if any, of them may have published, discussed or disseminated information or documents relating to asbestos to Celanese during the period of its membership. Celanese is presently unaware of any information to suggest it received such materials or information from those organizations during the years of Celanese's membership or at any other time.

**INTERROGATORY NO. 4:**

Please identify Defendant's employees or former employees or representatives who attended any proceedings, symposia, or conferences of a scientific or medical or technical nature at which information or documents relating to asbestos was discussed, disseminated, or published, (including, by way of example, the effects of exposure to asbestos, industrial hygiene measures relating to asbestos dust, and medical information or research relating to asbestos or its effects on animals or humans, populations at risk) and specifically including but not limited to the Seventh Saranac Symposium, 1952, and/or New York Academy of Sciences, October 1964, and for each such individual, state the proceedings, symposia, or conferences attended and to whom within your corporate organization information concerning attendance at such proceedings, symposia, or conferences were reported, either verbally or in documentary form.

**ANSWER:**

Celanese additionally objects to this request because it is overly broad, unduly burdensome and unlimited in time.

Subject to and without waiving these objections, Celanese states that Dr. Ernest M. Dixon attended the 1964 proceedings of the New York Academy of Sciences prior to joining Celanese. Beyond that, Celanese lacks sufficient information to know which of its 10,000 or more employees may have attended proceedings at which asbestos was discussed.

**INTERROGATORY NO. 5:**

Please identify each company from which you acquired asbestos-containing products used at Defendant's Premises At Issue during the years Plaintiff has indicated he worked at Defendant's Premises At Issue and include in your response

- a. a description of each asbestos-containing product acquired and
- b. the dates each asbestos-containing product was acquired.

**ANSWER:**

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence; and
2. It is unlimited in time, overly broad and unduly burdensome.

Subject to these objections, Celanese states that purchase and/or usage of asbestos-containing thermal surface insulation products was discontinued in 1972-1973 and that purchase and/or usage of other asbestos-containing materials was discontinued at various times thereafter as appropriate substitutes became commercially available. In response to the remainder of this interrogatory, for information relating to the Bay City plant, see the documents previously produced to you on July 13, 1999, in Cause No. 97-8-50930-B, *Arthur Dominguez, et al. v. Owens-Corning Fiberglas, et al.*, in the 135<sup>th</sup> Judicial District Court of Victoria County, Texas, bates-labeled 000001-006430. For information relating to the Deer Park plant from, see the documents previously produced to you on July 6, 2001, in Cause No. 00-04978-F, *Albert Joseph Bobb, et al. v. GAF Corporation, et al.*, in the 116<sup>th</sup> Judicial District Court of Dallas County, Texas, bates-labeled 014344-016004. For information relating to the alleged Celanese facility at "Bay Port, Texas," Celanese is presently unable to respond and reserves the right to supplement and/or amend this response pending the outcome of further discovery. For more information, see paragraph 12 of the General Responses, Objections and Assertions of Privilege above.

**INTERROGATORY NO. 6:**

If any asbestos-containing materials located or formerly located at Defendant's Premises At Issue have been removed, encapsulated, or otherwise abated at any time,

- a. Identify each person or company that performed such abatement services;
- b. State the dates and locations within Defendant's Premises At Issue of each abatement procedure; and
- c. Describe what asbestos-containing materials were abated
- d. State how such asbestos-containing waste was stored at Defendant's Premises At Issue prior to disposal and how it was disposed of.

**ANSWER:**

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
2. It is vague and ambiguous; and

3. It is unlimited in time, overly broad and unduly burdensome.

Subject to these objections, Celanese believes that removal of asbestos-containing materials would have occurred at various times during the course of the plants' existence. Removal would have typically been handled by the on-site maintenance contractors. Waste from removal activities would have occurred and been handled in conformance with any applicable state and/or federal regulations. Removal activities most often involved thermal surface insulation materials, although gasket material and transite board would have also been removed and disposed of from time to time. The documents previously produced to plaintiff's counsel in the *Dominguez* and *Bobb* cases contain more information on these topics and are generally Celanese's best source of information, and the information sought may be derived from them by plaintiff as easily as by Celanese.

**INTERROGATORY NO. 7:**

Please identify and state the experience and qualifications, if applicable, of every person known to you, your agents, or contractors as having knowledge of facts relevant to this case concerning Defendant's Premises At Issue during the Time Period At Issue, including but not limited to the identification or location in your premises of asbestos-containing products to which Plaintiff was exposed or facts disputing the identification or location of such product or type of products.

**ANSWER:**

Celanese additionally objects to this request because:

1. It is overly broad and unduly burdensome;
2. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
3. It fails to describe with reasonable particularity the information or items sought as required by Rule 196.1;
4. It is vague and ambiguous;
5. It assumes facts not in evidence and is based upon an improper premise; and
6. The phrase "experience and qualifications" is undefined, ambiguous, and vague.

Subject to and without waiving these objections, see Celanese's Rule 194.2(e) disclosures served or to be served on plaintiff.

### **INTERROGATORY NO. 8:**

With respect to Defendant's Premises At Issue during the Time Period At Issue, please identify and state the experience and qualifications, if applicable, of every person known to you, your agents, or contractors as being employed by you or having been employed by you whose duties and/or responsibilities included interface or liaison with Plaintiff's employer or other contractors who installed, removed, maintained, repaired or replaced asbestos-containing products (including foremen or supervisors or Plaintiff) on Defendant's Premises At Issue (regardless of job title, including but not limited to "plant engineers," "project engineers," "company engineers," "project superintendents," "purchasing agents" or job descriptions of a similar nature) and specifically include those whose duties and responsibilities included the following:

- a. entering into contracts or purchase orders (including specifications) with such contractors
- b. allowing such contractors access to Defendant's Premises At Issue,
- c. overseeing or supervising or observing or monitoring such contractor activities or addressing any contractor questions or concerns relating to the work being performed
- d. providing or approving asbestos-containing materials to be used by such contractors
- e. inspecting or approving work done by such contractors or authorizing payment for work done by such contractors.

### **ANSWER:**

Celanese additionally objects to this request because:

1. It is overly broad and unduly burdensome;
2. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
3. It fails to describe with reasonable particularity the information or items sought as required by Rule 196.1;
4. It is vague and ambiguous;
5. It assumes facts not in evidence and is based upon an improper premise; and
6. The phrase "experience and qualifications" is undefined, ambiguous, and vague.

Subject to and without waiving these objections, see Celanese's Rule 194.2(e) disclosures served or to be served on plaintiff.

Discovery is ongoing, and Celanese reserves the right to supplement and/or amend this response, if appropriate, with relevant and responsive information or documents, if any.

**INTERROGATORY NO. 9:**

If you have or have had an industrial hygiene or safety or medical department, please

- a. state the year such department was established, and whether it was established on the corporate level or at Defendant's Premises At Issue or both and
- b. with respect to Defendant's Premises At Issue during the Time Period At Issue, please identify and state the experience and qualifications, if applicable, of every person known to you, your agents, or contractors as being or having acted in a medical, safety, or industrial hygiene advisory capacity (regardless of job title), specifically including, but not limited to, physicians, medical directors, medical personnel, nurses, safety engineers or managers and industrial hygienists. (You should include in your answer those persons on a corporate level, regardless of whether they worked directly on Defendants' Premises if they had such responsibilities for workers on Defendant's Premises At Issue, and identify such individuals as affiliated with the corporate headquarters of Defendant.)

**ANSWER:**

Celanese additionally objects to this request because:

1. It is overly broad and unduly burdensome;
2. The phrase "experience and qualifications" is undefined, vague, and ambiguous; and
3. It fails to describe with reasonable particularity the information or items sought as required by Rule 196.1.

Subject to and without waiving these objections, every employee and contractor present at any Celanese site would have had some responsibility for safety and safe work practices. However, by way of further response, Celanese provides the following information:

As distinct from consultation from outside contractors, Celanese's medical department was created in 1956. Celanese hired its first on-staff industrial hygienist in 1966. Celanese had a formal safety department by at least 1948 and perhaps earlier, while each of its plants would have had a safety function from at or about the time of start up.

By way of further response, Celanese provides the following:

John Osterritter, M.D.  
Deceased  
Corporate level physician

Ernie Dixon, M.D., Sc.D.  
Corporate level physician

John Dougherty, M.D.  
Corporate level physician

Corporate level industrial hygienist

Lawrence R. Birkner, CIH, CSP

Discovery is ongoing, and Celanese reserves the right to supplement and/or amend this response, if appropriate, with relevant and responsive information or documents, if any.

**INTERROGATORY NO. 10:**

Please identify all warnings given by Defendant, if any, to anyone at Defendant's Premises At Issue (including the Plaintiff) regarding the hazards of asbestos and the dangers inherent in the inhalation of asbestos fibers, and please include in your response:

- a. to whom these warnings were given (and specifically state if Plaintiff was among them),
- b. when they were given, if ever, and
- c. in what manner they were given (e.g., written pamphlets, signs posted, oral/group meeting, individual discussions, etc.) and
- d. state whether you have ever published, written, edited, or distributed any other printed materials, including brochures, pamphlets, catalogs, packaging, advertising, signs, statements, or other materials containing any warnings of the possibility of injury from the use or exposure to asbestos or asbestos-containing products, and
- e. state whether any of the foregoing warnings were in Spanish or any other language besides English.

**ANSWER:**

Celanese additionally objects to this request because:

1. It fails to describe with reasonable particularity the item or category of items sought to be inspected, as required by Rule 196.1 of the Texas Rules of Civil Procedure;
2. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
3. It is unlimited in time, overly broad and unduly burdensome; and
4. It is based upon an improper premise and assumes facts not in evidence.

Subject to these objections, Celanese has no information at this time regarding warnings which may have been given directly to plaintiff Tucker. Investigation is ongoing, and Celanese reserves the right to supplement this response if appropriate. With respect to warnings in general about potential health hazards associated with asbestos, Celanese

refers plaintiff to the documents already produced or to be produced to plaintiff's counsel. These documents are generally Celanese's best source of information on this topic.

**INTERROGATORY NO. 11:**

If Defendant has had or maintained in its possession any books, pamphlets, memoranda, or written materials of any kind or character that would indicate that asbestos fibers, when inhaled, can be hazardous to the health of human beings, please identify

- a. the individuals who received, maintained, reviewed, and disseminated the information contained in such written materials,
- b. identify the written materials received, and
- c. state how and why these materials came into Defendant's possession.

**ANSWER:**

Celanese additionally objects to this request because:

1. It is not limited to the time or plants at issue in this case;
2. It seeks information that is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence; and
3. It is vague, ambiguous, overly broad and unduly burdensome.

Subject to these objections, it is believed that the corporate medical department may have received materials of this nature from time to time, and the company was certainly aware of the OSHA regulations. The individuals in the medical department during the relevant time would have been Ernest M. Dixon, M.D. and Charles S. Laubly. Mr. Laubly disseminated copies of the OSHA regulations and related materials to the company's plants. At the plant level, various individuals would have disseminated information and material regarding asbestos issues. For information relating to the Bay City plant, see the documents previously produced to you on July 13, 1999, in Cause No. 97-8-50,930-B, *Arthur Dominguez, et al. v. Owens-Corning Fiberglas, et al.*, in the 135<sup>th</sup> Judicial District Court of Victoria County, Texas, bates-labeled 000001-006430. For information relating to the Deer Park plant, see the documents previously produced to you on July 6, 2001, in Cause No. 00-04978-F, *Albert Joseph Bobb, et al. v. GAF Corporation, et al.*, in the 116<sup>th</sup> Judicial District Court of Dallas County, Texas, bates-labeled 014344-016004. Given the passage of time, the referenced documents generally constitute Celanese's best source of information on these topics. For information relating to the alleged Celanese "Bay Port, Texas" facility, Celanese is presently unable to respond and reserves the right to supplement and/or amend this response pending the outcome of further discovery. For more information, see paragraph 12 of the General Responses, Objections and Assertions of Privilege above.

### **INTERROGATORY NO. 12:**

Please describe in detail your manufacturing or industrial use of any asbestos or asbestos-containing products at Defendant's Premises At Issue. Please include in your response

- a. the type of asbestos fiber used,
- b. from whom you purchased the asbestos fiber used,
- c. a description of the process in which the asbestos was used.

### **ANSWER:**

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence; and
2. It is unlimited in time, overly broad, unduly burdensome, vague and ambiguous.

Subject to these objections, and subject to Celanese's understanding of this request (i.e., that this interrogatory seeks information about the possible usage of asbestos in Celanese's own manufacturing processes), not applicable.

### **INTERROGATORY NO. 13:**

Identify by name and location each plant, facility, location, or premises owned, operated, or controlled by you in which asbestos-containing products were assembled, stored, used, prepare for use, installed, or fabricated during the Time Period At Issue. For each plant, facility, location, or premises listed as responsive to the above request, specify

- a. the functional dates for each plant, facility, location, or premises and
- b. the period during which asbestos-containing materials were stored, used, prepared for use, installed or fabricated.

### **ANSWER:**

Celanese additionally objects to this request because:

1. It is overly broad, unduly burdensome and unlimited in time;
2. It is not limited to the plants at issue;
3. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;

4. It is vague and ambiguous; and
5. It is improper in that, in light of the number and discrete subparts of the foregoing interrogatories, this request exceeds the number of interrogatories permissible under the Texas Rules of Civil Procedure.

Subject to and without waiving these objections, the Bay City plant has been in operation since 1962 and has been owned and operated by a Celanese-related entity since then. The Deer Park plant was owned and operated by a Celanese-related entity from April 5, 1956 to November 19, 1974. Asbestos-containing products would have been utilized at various times and in varying amounts at the Bay City and Deer Park plants. Non-asbestos variants of the same types of products were extensively used in the plants during all periods. The purchase and/or usage of asbestos-containing thermal surface insulation products and cements was eliminated in 1972-1973, and the purchase and/or usage of other asbestos-containing materials such as gaskets and siding materials, was discontinued at various times thereafter as appropriate substitutes became commercially available.

**INTERROGATORY NO. 14:**

For any of Defendant's Premises At Issue, during the Time Period At Issue, if you, your affiliates, subsidiaries, or predecessor(s), arranged for any of your employees, labor inspectors, insurance company inspectors, industrial hygienists, or any other party, whether directly employed by you or otherwise, to count or measure quantity, quality or threshold limit values or concentrations of asbestos dust or particles or other dust at any of your plants, facilities, locations, or premises where asbestos or asbestos-containing products were used, assembled, installed, or removed, please describe such tests and indicate

- a. the results obtained,
- b. by whom such tests were performed and
- c. identify and state the experience and qualifications, if applicable, of every person known to you, your agents, or contractors as the person most knowledgeable concerning such tests and their results.

**ANSWER:**

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
2. It is overly broad, unduly burdensome, vague and ambiguous; and

3. It is improper in that, in light of the number and discrete subparts of the foregoing interrogatories, this request exceeds the number of interrogatories permissible under the Texas Rules of Civil Procedure.

Subject to these objections, for information relating to the Bay City plant, see the documents previously produced to you on July 13, 1999, in Cause No. 97-8-50930-B, *Arthur Dominguez, et al. v. Owens-Corning Fiberglas, et al.*, in the 135<sup>th</sup> Judicial District Court of Victoria County, Texas, bates-labeled 000001-006430. For information relating to the Deer Park plant, see the documents previously produced to you on July 6, 2001, in Cause No. 00-04978-F, *Albert Joseph Bobb, et al. v. GAF Corporation, et al.*, in the 116<sup>th</sup> Judicial District Court of Dallas County, Texas, bates-labeled 014344-016004. Given the passage of time, the referenced documents generally constitute Celanese's best source of information on these topics. For information relating to the alleged Celanese facility at "Bay Port, Texas," Celanese is presently unable to respond and reserves the right to supplement and/or amend this response pending the outcome of further discovery. For more information, see paragraph 12 of the General Responses, Objections and Assertions of Privilege above.

#### **INTERROGATORY NO. 15:**

For the Time Period At Issue, if you provided or caused to be provided any safety equipment or medical programs (including, but not limited to, masks, respirators, other breathing devices, protective clothing, protective gloves, area air filtration systems, and area exhaust systems or barriers or enclosures or medical monitoring program, medical examination program, or other medical or safety program) to employees, contractors, or invitees at any of your plants, facilities, locations, or premises where asbestos and asbestos-containing products were manufactured, used, assembled, installed, or removed, please indicate

- a. when such was first provided to your employees, contractors, and/or invitees and to whom,
- b. under what circumstances such were provided, and
- c. state whether you conducted safety meetings discussing the hazards of asbestos with employees, contractors, or invitees at any of Defendant's Premises At Issue during the Time Period At Issue, and if so, when and what was discussed, and
- d. identify and state the experience and qualifications, if applicable, of every person known to you, your agents, or contractors as the person most knowledgeable concerning such equipment and programs and their provision.

**ANSWER:**

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
2. It is not limited to the plants at issue and it is overly broad and unduly burdensome; and
3. It is improper in that, in light of the number and discrete subparts of the foregoing interrogatories, this request exceeds the number of interrogatories permissible under the Texas Rules of Civil Procedure.

Subject to these objections, Celanese states that respiratory protection was issued as appropriate to its own employees from the time the plants began operations. Contractors working at the plants generally provided respiratory protection to their own employees although Celanese occasionally loaned specialized respiratory equipment to contractors undertaking unusual tasks. The respiratory protection referenced above was used to protect individuals against excessive concentrations of dusts, vapors, and fumes. After reasonable inquiry, Celanese is currently unaware of any "one person with the most knowledge" of its safety equipment policies at either the Bay City or Deer Park plant. With respect to safety equipment, medical programs and related issues, see the documents already produced or to be produced to plaintiff's counsel. Given the passage of time, these documents are generally Celanese's best source of information on these topics, and the information sought may be derived from them by plaintiff as easily as by Celanese.

**INTERROGATORY NO. 16:**

Please state for each of Defendant's Premises At Issue, all relevant State and Federal regulations, laws, statutes, mandates, or other authority pertaining to industrial hygiene, safety, and health of which you were aware during the Time Period At Issue that governed, controlled, or applied to exposure to asbestos or asbestos-containing products, abatement or removal of asbestos-containing products, and transportation of asbestos containing waste from such removal or abatement activities.

**ANSWER:**

Celanese additionally objects to this request because it seeks conclusions of law as opposed to seeking factual information. Further, it is overbroad, vague, ambiguous, unduly burdensome, and harassing.

### **INTERROGATORY NO. 17:**

For any of Defendant's Premises At Issue, detail every occasion during the Time Period At Issue when any State, Federal, or local regulatory agency, commission, or other examiner inspected or visited any of your plants, facilities, locations, or premises where asbestos and asbestos-containing products were used, manufactured, assembled, installed, or removed to ascertain whether you were in compliance with relevant State, Federal, or local health and safety regulations.

### **ANSWER:**

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
2. It is vague, ambiguous, overly broad and unduly burdensome; and
3. It is improper in that, in light of the number and discrete subparts of the foregoing interrogatories, this request exceeds the number of interrogatories permissible under the Texas Rules of Civil Procedure.

Subject to these objections, Celanese states that, to its knowledge, no regulatory agencies have inspected the Bay City or Deer Park plant solely to determine compliance with asbestos regulations. By way of further response, for information relating to the Bay City plant, see the documents previously produced to you on July 13, 1999, in Cause No. 97-8-50930-B, *Arthur Dominguez, et al. v. Owens-Corning Fiberglas, et al.*, in the 135<sup>th</sup> Judicial District Court of Victoria County, Texas, bates-labeled 000001-006430. For information relating to the Deer Park plant, see the documents previously produced to you on July 6, 2001, in Cause No. 00-04978-F, *Albert Joseph Bobb, et al. v. GAF Corporation, et al.*, in the 116<sup>th</sup> Judicial District Court of Dallas County, Texas, bates-labeled 014344-016004. Given the passage of time, the referenced documents generally constitute Celanese's best source of information on these topics. For information relating to the alleged Celanese facility at "Bay Port, Texas," Celanese is presently unable to respond and reserves the right to supplement and/or amend this response pending the outcome of further discovery. For more information, see paragraph 12 of the General Responses, Objections and Assertions of Privilege above.

### **INTERROGATORY NO. 18:**

If, before 1980, you have received notice that any individual or individuals had claimed for alleged injury against you resulting from exposure to asbestos, state for each:

- a. The name and address of the claimant
- b. A description of the claim.

- c. The name and address of the attorney representing such claimant.

**ANSWER:**

Celanese additional objects to this request because it is improper in that, in light of the number and discrete subparts of the foregoing interrogatories, this request exceeds the number of interrogatories permissible under the Texas Rules of Civil Procedure.

Subject to and without waiving these objections, not applicable.

**INTERROGATORY NO. 19:**

If you contend that you did not own or operate or control the Defendants' Premises during the Time Period At Issue, or if you contend you are not liable in the capacity alleged in the most recent petition, describe in detail the facts supporting your contention and include a detailed corporate history of Defendant and its ownership, sale, acquisition, or divestiture or any of Defendant's Premises At Issue and any relevant mergers, acquisitions, consolidation, or other events of similar nature that you believe bear on the issue of ownership, control, or assumption of liabilities for acts occurring on Defendant's Premises At Issue during the Time Period At Issue and identify and state the experience and qualifications, if applicable, of every person known to you, your agents, or contractors as having knowledge of facts relevant to this issue.

**ANSWER:**

Celanese additionally objects to this request because it is improper in that, in light of the number and discrete subparts of the foregoing interrogatories, this request exceeds the number of interrogatories permissible under the Texas Rules of Civil Procedure.

Subject to and without waiving these objections, this interrogatory is not applicable to the Bay City plant. The Deer Park facility was named Deer Park Plastics Plant. It was owned by Celanese Corporation, a predecessor corporation of CNA Holdings, Inc., f/k/a HNA Holdings, Inc., from April 5, 1956 until November 19, 1974. On November 19, 1974, the Deer Park facility was sold to Soltex Polymer Corporation, which assumed all liabilities. For information relating to the alleged Celanese facility at "Bay Port, Texas," Celanese is presently unable to respond and reserves the right to supplement and/or amend this response pending the outcome of further discovery. For more information, see paragraph 12 of the General Responses, Objections and Assertions of Privilege above. As for the remainder of this interrogatory, see Celanese's Rule 194.2(e) disclosures. Further, discovery is ongoing, and Celanese reserves the right to supplement and/or amend this response, if appropriate, with relevant and responsive information or documents, if any.

**INTERROGATORY NO. 20:**

If you contend that venue is not proper, identify by municipality and county the location you contend is your principal place of business within this state for purposes of venue, as well as your next three most significant business locations within this state. If you do not contend that any of your locations are a principal place of business, identify up to four of your places of business where your highest level decision makers within this state work.

**ANSWER:**

Celanese additionally objects to this request because it is improper in that, in light of the number and discrete subparts of the foregoing interrogatories, this request exceeds the number of interrogatories permissible under the Texas Rules of Civil Procedure.

Subject to and without waiving these objections, not applicable.

**DEFENDANT CELANESE LTD.'S RESPONSE TO  
PLAINTIFF'S RULE 194 REQUEST FOR DISCLOSURE**

In accordance with Rule 194 of the Texas Rules of Civil Procedure and in response to Plaintiff's Rule 194 Request for Disclosure, Defendant Celanese Ltd. ( "Celanese") provides the following information:

**(a) The correct names of the parties to the lawsuit:**

Celanese Ltd. is the correct name of this defendant.

**(b) The name, address, and telephone number of any potential parties:**

At this stage of the suit, Celanese has insufficient information to know if all proper parties are joined.

**(c) The legal theories and, in general, the factual bases of the responding party's claims or defenses:**

On the basis of the limited information and vague allegations contained in Plaintiffs' Petition, Celanese believes the following affirmative defenses do or may apply to this case:

The sole proximate cause of Plaintiff's alleged injuries or damages were the acts or omissions of other parties or persons over whom Celanese had no control and for whom Celanese is not legally responsible. No act or omission on the part of Celanese either caused or contributed to Plaintiff's alleged injuries or damages. Further, Celanese owed Plaintiff no duty, legal or otherwise, and is therefore not liable to Plaintiff for any alleged breach of any alleged duty.

As to any injuries or damages Plaintiff alleges to have incurred, Plaintiff voluntarily and knowingly assumed the risk of incurring any of the injuries or damages alleged. Additionally, Plaintiff failed to exercise ordinary care for his own safety, and such failure on his part proximately caused any injuries or damages alleged.

Plaintiff's claims against Celanese are barred by the applicable statute of limitations and the doctrines of laches and waiver.

Finally, assuming Plaintiff did perform some type of independent contractor work at a Celanese facility, Celanese denies that Plaintiff was exposed to asbestos at all, or in sufficient quantities to have caused any harm. Celanese believes its plants are and were safe and well-maintained industrial facilities, and there would have been insufficient opportunity for any such exposure.

**(d) The amount and any method of calculating economic damages:**

Celanese is not claiming monetary damages in this suit at this time.

**(e) The name, address, and telephone number of persons having knowledge of relevant facts, and a brief statement of each identified person's connection with the case:**

At this time, Celanese has insufficient information regarding Plaintiff or where and when he worked to say who at Celanese or elsewhere has knowledge of relevant facts. Investigation is ongoing, and Celanese will supplement as discovery progresses.

**(f) For any testify expert: 1) the expert's name, address, and telephone number; 2) the subject matter on which the expert will testify; 3) the general substance of the expert's mental impressions and opinions and a brief summary of the basis for them, or if the expert is not retained by, employed by, or otherwise subject to the control of the responding party, documents reflecting such information; 4) if the expert is retained by, employed by, or otherwise subject to the control of the responding party: (A) all documents, tangible things, reports, models, or data compilations that have been provided to, reviewed by, or prepared by or for the expert in anticipation of the expert's testimony; and (B) the expert's current resume and bibliography:**

Celanese does not have sufficient information at this time to decide which, if any, experts might be needed or utilized in this case. Celanese reserves the right to supplement.

**(g) Any discoverable indemnity and insuring agreements:**

Celanese is investigating to determine whether any such agreements exist. Celanese reserves the right to supplement.

**(h) Any discoverable settlement agreements:**

None.

**(i) Any discoverable witness statements:**

None.

**(j) In a suit alleging physical or mental injury and damages from the occurrence that is the subject of the case, all medical records and bills that are reasonably related to the injuries or damages asserted or, in lieu thereof, an authorization permitting the disclosure of such medical records and bills:**

Not applicable.

**(k) In a suit alleging physical or mental injury and damages from the occurrence that is the subject of the case, all medical records and bills obtained by the responding party by virtue of an authorization furnished by the requesting party:**

None at this time. Celanese will supplement if necessary and appropriate.
