Subject: From Heartland: GUEST AVAILABILITY: Meet the 'Climate Realists' Who Helped Trump Withdraw from Paris

Friends,

This news release is going out now to address fake claims that **climate science** supports staying in the Paris Accord.

If you are on the list, be prepared to get a call from reporters or Jim Lakely.

Joe

GUEST AVAILABILITY: Meet the 'Climate Realists' Who Helped Trump Withdraw from Paris

Joseph,

President Trump yesterday made the bold and correct decision to withdraw the United States from the Paris Climate Agreement. He offered sound economic arguments for exiting the accord, but the scientific justifications for getting out are just as strong.

The Heartland Institute – a national free-market think tank based in Illinois – has done more to promote the work of scientists skeptical of catastrophic man-caused global warming than any other organization. Below is a list of more than 200 scientists, economists, and policy experts who can make the scientific case for the United States exiting the Paris Climate Accord.

To interview any of these experts, please contact Heartland Institute Director of Communications Jim Lakely at jlakely@heartland.org or call/text **Ex. 6**
