

E. SCOTT PRUITT
ADMINISTRATOR

June 26, 2017

Mr. John Hopkins
Chief Executive Officer
NuScale Power
6650 SW Redwood Lane, Suite 210
Portland OR 97224

Mr. Hopkins:

Thank you for your participation and your willingness to travel to Italy for the Food Loss and Waste Event at Eataly World. It was a great event, and I truly enjoyed meeting you and the other business execs afterward. I enjoyed our dialogue and am blessed that we had the opportunity to fellowship.

I received your letter detailing NuScale Power's nuclear technology. Your small modular reactors sound quite promising. It will be marvelous if your technology can indeed not only protect our environment but additionally create jobs, stimulate the economy, and meet our energy security goals. I have asked my scheduling team to find an opportune time for me to visit Oregon to tour your facilities. That would be fascinating to me.

And, thank you for your leadership with the U.S. Chamber of Commerce!

Wishing you the best,
