prepared for its members?

A It was in that time frame. This thing here you say is '76?

Q January?

A January '76. I think our booklet was in 1978, you know, I probably saw this before then.

Q All right. At the time that you received the information on Exhibit F, do you recall having previously discussed or circulated information about asbestos causing cancer to members of the Asbestos Study Committee?

A I can't really answer that question because when is the date and whether it was before that date and I can't remember dates. I can't -- if you show me the piece of paper did I send it, I will tell you yes or no.

MR. PURCELL: Okay. Let me mark as Exhibit G a memorandum from E. W. Drislane, Executive Director to the Asbestos Study Committee, the subject is activity concerning asbestos and it bears a date of December 26, 1973, from the Friction Materials Standards Institute.

(Exhibit G, 12/16/73 Memo, is marked for identification.)

BY MR. PURCELL:

Q Let me hand you that and take a moment to review
