Gentlemen:

Please refer to our 'phone conversation during Mr. Cotgreave's visit to our Plant, May 2nd 1968.

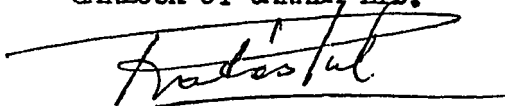

According to his instructions, I attach two copies of our drawing showing the arrangement of the Exhausting System we propose to build over our two Braiding Machines, which could be involved from time to time in processing with blue asbestos.

We hope this arrangement will satisfy your requirements, taking into account the limited size of operation of our braiding machines, as I explained it to you.

Waiting for your comments, we remain

Yours very truly,

GARLOCK OF CANADA LTD.
