Gentlemen:

After discussion with Reed Wright, I feel it's important that you be made aware of recent developments in Mono-Kote formulations.

You will shortly be receiving a new procedure for "MK-4" from Underwriters' Laboratories, Inc. This is the non-asbestos Mono-Kote.

This information is very confidential as is all Underwriters' Laboratories, Inc. procedures, and it's expected you will act accordingly. Since there are varying degrees of pressure for this new product, it is important that no action be taken by any of you without direct discussion and approval by your production superiors and sales managers.

This letter is to alert you that this document is forthcoming. IT WILL NOT REPLACE YOUR PRESENT MK-3 PROCEDURE. Just keep it in a safe place so you will have it if and when it's necessary.

Yours truly,

Tom; jac
Thomas F. Egan
