

Latest Technical Information in New Fifth Edition!

Substantial Savings Off Publisher's List Price!

Brand New 1991 Edition is First Since 1976!

PLASTICS ENGINEERING HANDBOOK

of the Society of the Plastics Industry, Inc.

sponsored by **SP**

CTL029001

It's finally here—the long-awaited Fifth Edition of SPI's *Plastics Engineering Handbook*, incorporating the latest innovations since the Fourth Edition was published in 1976.

Ever since the first edition was released in 1947, the *Plastics Engineering Handbook* has been the industry's most comprehensive guide to plastics materials, processing methods and related machinery.

The *Plastics Engineering Handbook* is published by Van Nostrand Reinhold and sponsored by SPI.

SPI's *Plastics Engineering Handbook* gives you one of the most useful and concise studies of plastics materials available in a single publication. Entire chapters are devoted to polymer chemistry, properties and applications of plastic materials, vinyl dispersion reinforced plastics and composites and cellular plastics. And, you get a glossary of terms and list of references in case you need further information.

Get the Latest Technical Information from the "Voice of the Plastics Industry"

PLASTICS ENGINEERING HANDBOOK

The new Fifth Edition of the *Plastics Engineering Handbook* covers the major innovations that have occurred in the plastics industry over the past 15 years. You'll find analysis of new, state-of-the-art technologies such as gas-assisted injection molding, computer automation, the latest sophisticated controls, and newest composite materials and processes.

Of course, traditional materials and processing methods are covered in thoroughgoing detail. From a functional overview of polymer chemistry to in-depth coverage of plastic processing concepts, design considerations and machinery. From mold and molded part design to information on decorating, compounding, finishing, joining, inserts and testing. The *Plastics Engineering Handbook* gives you everything you've always wanted in a single reference.

Scrupulously researched, conveniently organized, and thoroughly indexed, SPI's Plastics Engineering Handbook is the one technical reference no plastics engineer should be without.

5th EDITION

THE SOCIETY OF THE PLASTICS INDUSTRY

CTL029002

The *Plastics Engineering Handbook* covers processing methods in exhaustive detail. Fully-illustrated, conveniently-organized chapters cover theory, methods, machinery, materials, auxiliary equipment/tooling and the latest technical innovations in injection molding, extrusion, compression and transfer molding, blow molding, thermoforming, rotational molding, calendaring, powder coatings, reinforced plastics, and cellular plastics processes, including RIM.

Extensive information on mold design, radiation processing, material and parts handling, finishing and machining, joining and assembly and decorating is also included.

Full of detailed illustrations, charts and tables, packed with the latest technical information, the *Plastics Engineering Handbook* is a must have for any engineer, salesman, designer or instructor in the fields of plastics and polymer science.

The Fifth Edition of the *Plastics Engineering Handbook* was edited by Michael L. Berins, president of The Plastics Connection and editor of *Plastics Focus*.

This is the first revision to the *Plastics Engineering Handbook* in 15 years, so don't miss this opportunity to get the latest edition of the industry's most complete single reference. Order your copy today!

Indeed, the story of the U.S. plastics industry always has been one of phenomenal growth and unparalleled innovation. While these factors make compilation of a book such as this difficult, they also make it necessary. Thus I acknowledge all those who worked to gather and relate the information included in this 1991 edition and thank them for the effort it took to make the Plastics Engineering Handbook a definitive source and invaluable tool for our industry."

Larry L. Thomas
President
The Society of the Plastics Industry

... and Save Time and Money by Ordering Direct from SPI

Ordering the *Plastics Engineering Handbook* is easy. Just fill out the order form on the reverse side of this page, attach your payment and mail it in! Orders are shipped via UPS within 24 hours of receipt.

Or, if you prefer, you may place your order over the phone using your Visa or MasterCard. Our literature sales representatives will be happy to take your order today. Call the toll-free number listed at right to place your order now.

C O N T E N T S

- GLOSSARY
- POLYMER CHEMISTRY
- PLASTIC MATERIALS/PROPERTIES & APPLICATIONS
- EXTRUSION PROCESSES
- INJECTION MOLDING OF PLASTICS
- DESIGN CONSIDERATIONS FOR INJECTION MOLDS
- INJECTION MOLD MANUFACTURING
- INJECTION MOLDING OF THERMOSETS
- COMPRESSION AND TRANSFER MOLDING
- DESIGNING MOLDS FOR THERMOSET PROCESSING
- MOLDED PART DESIGN
- BLOW MOLDING OF THERMOPLASTICS
- THERMOFORMING OF PLASTIC FILM AND SHEET
- ROTATIONAL MOLDING
- CALENDERING
- VINYL DISPERSIONS
- POWDER COATINGS
- REINFORCED PLASTICS AND COMPOSITES
- CELLULAR PLASTICS
- RADIATION PROCESSING
- MATERIAL AND PARTS HANDLING
- COMPOUNDING
- FINISHING AND MACHINING PLASTICS
- JOINING AND ASSEMBLING PLASTICS
- DESIGN STANDARDS FOR INSERTS
- DECORATING PLASTICS
- PERFORMANCE TESTING OF PLASTICS PRODUCTS

Order Form

(No. AB-125) PC: PEH91

Please send me _____ copies of the Fifth Edition of SPI's *Plastics Engineering Handbook*. I've enclosed \$_____ in payment of my order.

Name _____

Company _____

Address _____

City _____ State _____ Zip _____

Telephone _____

wish to pay by: ☐ MasterCard ☐ Visa

Account Number _____

Expiration Date _____ Signature _____

Mail to: SPI, P.O. Box 753, Waldorf, MD 20604

Prices

SPI Members: \$69.95 Non-members: \$79.95

Be sure to enclose check made payable to SPI or include credit card information. All orders must be prepaid. We are sorry we are unable to invoice.

Shipment

Please supply street address if possible. See chart for postage and handling fees. Please allow 2-4 weeks for delivery; if funds are wire-transferred, allow 8-10 weeks.

Postage and Handling Fees

Total Price of Order	Domestic Fee	Overseas Fee
\$0.00 - \$10.00	\$2.00	\$20.00
\$10.01 - \$50.00	\$4.00	\$30.00
\$50.01 - \$100.00	\$8.00	\$40.00
\$100.01+	\$10.00	20% of Total or \$50.00, whichever is greater
