

INDEX

<u>Agriculture</u>		<u>Dermatologist</u>	
health problems in	51	and compensation	54
<u>Anthrax</u>		<u>Derris</u>	
treatment with penicillin	46	tropical occupational disease	44
<u>Aromatic amines</u>		<u>Detoxication</u>	
tumors of bladder	93	fates of quinol and	
<u>Aromatic hydrocarbons</u>	94	resorcinol	79
<u>Arthritis</u>		<u>Diesel locomotives</u>	104
sequel of trauma wrist	40	<u>Dust</u>	
Asbestosis		empyema of nasal sinuses	114
forty necropsied cases	36	<u>Dust control</u>	
<u>Bagasse</u>		in ceramic industries	105
effect of prolonged exposure	111	<u>Dust diseases</u>	110
<u>Bauxite-pneumoconiosis</u>		<u>Education</u>	
from fumes	117	in industrial medicine	28
<u>Benzene</u>		<u>Ethyl acrylate</u>	
metabolism of	80	toxicity	84
<u>Benzene hexachloride</u>		<u>Ethylene chloride</u>	
determination of gamma	127	fatality and illness	86
<u>Beryllium</u>		<u>Eye</u>	
in biological materials	123	effects of radiant energy	119
inhibition of phosphatase	67	promoting safety	144
pulmonary granulomatosis	103	<u>Fire prevention</u>	
<u>Beryllium poisoning</u>	64	non-flammable gases	142
<u>Beryllium sulfate</u>		<u>Fluorine compounds</u>	
mist inhalation	66	safe handling	91
<u>Blood Banks</u>	53	<u>Fluoride poisoning</u>	
<u>Carbon dioxide</u>		therapy of	90
central inhibitory effects	89	<u>Fumes</u>	
<u>Carbon monoxide</u>		control in nonferrous	
in mine air	124	melting	128
<u>Chlorine dioxide</u>		<u>Fumigants</u>	
fire and explosion safeguards	140	retention of	87
<u>Coal dust</u>		<u>Geriatrics (Bk. Rev.)</u>	25
stains on filter paper	126	<u>Head Injuries</u>	49
<u>Colds</u>		<u>Health Committee</u>	30
antihistamines treatment	37	<u>Industrial health programs</u>	130
therapy	38	<u>Industrial hygiene at Kennecott</u>	138
<u>Collective bargaining provisions</u>	132	<u>Industrial medicine</u>	29
<u>Common Cold</u>		<u>Industrial relations</u>	
management of	39	proceedings	27
<u>Compressed air illness</u>		<u>Industrial safety</u>	
chronic changes in joints	47	President's Conference	21
<u>Corundum smelter</u>		<u>Inflammability of liquids</u>	141
lung lesions in	113	<u>Insecticide piperonyl butoxide</u>	
<u>Dentistry</u>		acute toxicity	101
and atomic energy program	122	<u>Lead compounds</u>	
<u>Dermatitis</u>		solubility	69
classification of patterns	55	<u>Lead poisoning</u>	
due to rubber	56	cardiovascular changes in	70
in making of chocolate candy	58	simulating appendicitis	71
pigmentary disturbances	57	wrecking bridges	68
