Dear Jim:

It is my understanding that you are planning to produce this material December 17, 1971.

I have discussed this with Paul Goss and Jack Murphy and they have several accounts that would like to use approximately half of this run. And as per our previous discussion, Mr. Powers would like to have the other half to use with three of his salesmen.

Since I am going to be on vacation, would you please expedite this shipment to Mr. Powers and notify him of it when you ship him a carload of roll goods.

The reason I am anxious to get this material in the field as I would like to have some testimonials concerning this material at my Sales Meeting in Cherry Hill. Thanks.

Best regards.
