Allie, James	1296	56	E	35 yrs. finishing in E Bldg. Planer	None		Enlarged rt. hilar shadows.	Enlarged heart. Dropped from list 1949.	5-17-52 diffuse infiltration both upper and lower lobes.	x			x
Andresko, John	2357	35	I	H 3-1/2 yrs. RW 1 mo. Al 1 yr. I 13 yrs.	None		Employed 1933.	Dense areas each hilum. Increase bronchial marking.	Some soft infiltration rt. apex. Re-Xray 6 mos.				
Arik, Julius	2156	36	E&R	Res. 1 yr. E&R 18 yrs.	None		Negative.	Generalized fibrosis. Healed area l. apex.	No change.				x
Banash, James	1639	59	Al	Saw room C-1 yr. Stock room E-1 yr. H, slate man-1 yr. Al - 17 yrs.	Soft coal mines 20 yrs.		Increased infiltration both lungs. Suspect pneumoconiosis.	No change. Pneumoconiosis minimal Tbc. left apex.	No change.		x	x	
Barta, Julius Ret. 5-1-52	1288	62	E	11 yrs. dust bin? 20 yrs. -E	Cut glass factory 11 yrs.	Letter 1949 1952	Moderate increased infiltration both sides.	Generalized fibrosis.	Advanced pneumoconiosis predominately diatomaceous earth.		x		x
Batula, Frank	1206	45	Ship.	26 yrs. Magnesia	Erie RR 1 yr.	Letter 1952	Increased markings rt. base.	Linear exaggeration calcified nodes rt. hilar region.	Advanced pneumoconiosis, mostly diatomaceous earth.		x		x
Begane, Stephen	1515	54	F	27 yrs. F Bldg. mach. room, etc.	Army 3 yrs. Oil-less Bearing 5 yrs.	Letter 1950 1952	Negative.	Heart enlarged. Generalized fibrosis nodulation both lung fields.	Advanced mixed.	x	x		
Bellak, Karl	1292	62	E	30 yrs. J-M in Mag. Last 20 yrs. as planer.	Farming.		Moderate increased infiltration both sides.	Slight linear reaction.	Diffuse interstitial fibrosis.		x		x
Bellomo, Louis	19	58	A-1	27 yrs. J-M - Al.	Sulphur mines 1-1/2 yrs.	Letter 1950	Definite increased infiltrations both bases, suspect pneumoconiosis.	Considerable fibrosis. Resembles asbestosis.	Mixed-predominately asbestosis.		x		
Bender, Mary	2000	58	A	32 yrs. J-M weaver.	None		Too obese for good film.	Probable asbestosis.	Increased markings both lower bases.		x		
Bielinski, John	6881	44	I	10 yrs. J-M, relief operator, I.	Hard coal, 11 yrs.	Letter 1941 1948	Employed 1941.	Anthracosis. Linear exaggeration.	Cardiac enlargement to left. Increased linear markings both bases.				
Blanik, Anna	6351	43	A	11 yrs. J-M, weaver A.	Raritan Woolen Mills 12 yrs.	9-23-52	Employed 1941.	Considerable density both bases. Infiltration l. mid-lung. Cause unknown.	Asbestosis. 9-9-52. Moderate pneumoconiosis, predominately Asbestosis.		x	x
