ASBESTOS

Your Memo dated 11/8/66

In answer to your request for information about  
our experience handling asbestos at this Works,

- A. We have no full-time insulators on the plant.
- B. Two employees do part-time insulating about two weeks per year.
- C. Fiberglass is the prevalent insulating material used. For elbow fitting and other infrequent needs asbestos "shorts" may be employed.
- D. No spraying of insulating materials is done on the plant.
- E. We are aware of no cases of asbestosis, mesothelioma, or carcinoma among our part-time insulators.
- F. Safety measures have not applied specifically to insulating procedures and special safety equipment has not been employed.

C. W. BROOKS, MANAGER  
POMPTON LAKES WORKS
