Good morning Sydney,

Hope all is well. Ryan had noted this was confirmed and to check in with you on timing. We are available any time in the morning, preferably around 11:30am so they can fly in that morning for the meeting. Would that work for Administrator Pruitt? If not, just let us know what works.

Thank you so much for all your help!!

Best,
Amy

Ryan and Mandy,

Hope all is well. I'm sure things are busy over there given yesterday's announcement.

We were hoping Administrator Pruitt might have some time to meet Honeywell's Performance Materials and Technologies CEO, Rajeev Gautam, and Honeywell's General Counsel, Kate Adams, on June 28th? We are eager to give him an overview on our business and specifically talk about the Significant New Alternatives Policy (SNAP) program and SNAP rules, Montreal Protocol and greenhouse gas emissions and fuel economy standards for light-duty vehicles.

Please let me know if timing works and if you need anything more from my end.

Best,

Amy

Honeywell (www.honeywell.com) is a Fortune 100 diversified technology and manufacturing leader, serving customers worldwide with aerospace products and services; control technologies for buildings, homes, and industry; turbochargers; and performance materials. For more news and information on Honeywell, please visit www.honeywell.com/newsroom.

Honeywell Performance Materials and Technologies (PMT) is a global leader in helping industrial customers become more connected in order to improve efficiency, reliability, optimization and security. PMT's Advanced Materials business manufactures a wide variety of high-performance products, including Solstice® an environmentally preferable refrigerant, and Spectra®, a lightweight but incredibly strong fiber used in bullet-resistant armor, helmets and other performance fabrics. Honeywell UOP (www.uop.com) helped create the modern refining industry, and its process technologies and catalysts form the foundation for most of the world's refineries, petrochemical manufacturers and natural gas processors. Honeywell Process Solutions (www.honeywellprocess.com) is a pioneer in automation control, instrumentation and services for industries such as oil and gas, refining, pulp and paper, industrial power generation, chemicals and petrochemicals, biofuels, life sciences, and metals, minerals and mining.

Sydney,

I hope you are well! I know Ryan is traveling, but I just emailed with him and he asked me to check in with you on this Honeywell request as he said the meeting had been set up. Could you please let me know what time the meeting with the Administrator is on the 28th? Thank you! - Ryan

Ryan Day Thompson
