Thanks a lot [redacted]

Please let me know their feedback and then we can share the FEC contact, if ok.

Kind Regards

[redacted]

Dear [redacted]

Thank you for this information, I will forward your message to the group working on food contact materials.
In this group also some RIVM experts are involved with a lot of knowledge on exposure modeling.

Kind regards,

[redacted]

Subject: About stakeholders interested to share information and to follow the universal restriction

Dear [REDACTED] and [REDACTED]

In ECHA we have received a request from a stakeholder that can be summarised like this:

FEC (<https://fecassociation.eu/>) are conducting studies on the migration rates from kitchen products to food etc. and would like the opportunity to share their work and seek feedback on the types of (exposure) models that need to be used/developed to properly take this data into account. They are interested to follow the developments in the PFAS group and the restriction work where possible.

We think that it would be better that they use proper channels to share information relevant for the restriction, rather than the PFAS working group, which is not meant for this type of exchange with stakeholders.

I copy in [REDACTED] because he is following your work closely.

I know that the call for evidence is closed now.

Would you still have the possibility to accept this information, somehow? How?

Thanks for any feedback on this!

Kind regards

[REDACTED]
