

Monsanto

FROM (NAME & LOCATION)

V.J. Héroufousse - Brussels

DATE 29th April 1970 cc.
SUBJECT CLOPOPHENYL 5460
REFERENCE VJH/er
TO : Cumming Paton - St. Louis

A sample of subject material was picked up at "la CERESINE" in France.

It is said to be equivalent to Aroclor 5460. It might even be A-5460, although the physical form does not appear to be identical. We were unable to determine the origin.

Could you have it evaluated spec-wise against A-5460 and comment.

Thanks,

V.J. Héroufousse

PS A Sample was airmailed to you today.
