R. W. Laundrie

TO: Members of the Vinyl Chloride Safety Association

Attached is a questionnaire on Reactor Pressure Relief Facilities. The last time such a questionnaire was given out to the members of the Vinyl Chloride Safety Association there were a lot of loose ends and we are hoping this questionnaire will tie some of these together. Bob Laundrie of General Tire & Rubber has agreed to correlate this information and present it at the September meeting. Please return this questionnaire to him at your earliest convenient

date. Send it to:
Bob Laundrie
General Tire & Rubber Company
Environmental Manager
Akron, Ohio 44329
