Hi Allison,

I am seeking comment on the withdrawal letter sent to the Ohio EPA on January 12 and, principally, the Environmental Law and Policy Center's response to it, which in sum, states that the merits of the case are decided and per the CWA, the US EPA should now go into the impairment process of setting TMDLs, etc.

I'm on a quick deadline for this, so a response by the end of business today would be greatly appreciated. My article will appear on beltmag.com.

Thanks,
Joey Horan
