Chief, Bureau of Ships
Department of the Navy
Washington 25, D. C.

Attention: Code 345C

Gentlemen:

This is to certify that Johns-Manville
Style 42 Conepac is essentially the same and inter-
changeable with Garlock Style 935 in the following
two types:

- (1) Type having sets of center rings only.
- (2) Type having sets with end rings of the
same composition as center rings.

If this information is not entirely clear
from a technical standpoint we would be glad to
furnish to you the technical literature and any
samples which you may require to make a more exact
determination.

Sincerely yours,

345C
