

1 doctor told me that -- the regular doctor wasn't in,
2 he was on vacation. And I had to see another doctor.

3 So he told me to take him over to get X-rays
4 done. So I had X-rays done, and went back to his
5 office and he said that there was fluid in there.

6 And he said that he had to see a specialist,
7 so he appointed me for the next day. So I went the
8 next day to the specialist, Dr. Benjamin.

9 Q Where was that?

10 A Dr. Benjamin, out on Old Mill Road, out in
11 Old Mill. So I went to his office and he examined
12 him, and he said that he had fluid all on the one side
13 of his chest. So he said he would give him some
14 medicine and told me to take him home, and if he
15 wasn't better in two days to call him.

16 Well, that night I had to rush him to North
17 Arundel Hospital.

18 Q Why?

19 A Because it got worse. He couldn't breathe.
20 So then North Arundel had to give him a breathing
21 treatment, and they called in for breathing
