Attention: Mr. David D. Ward
Insurance Manager

Gentlemen:

This will acknowledge receipt of your letter dated October 16, 1975. Unfortunately, I am unable to provide you with direct reference to other insurance and risk managers of companies who are members of the Vinyl Chloride Safety Association. Of assistance may be the roster of member company representatives, who, through your contact, could direct you to their insurance manager for discussion of the problem of insurance coverage of large reactors.

Trusting that such a mailing list will be helpful, I am enclosing a copy for your use.

Very truly yours,

VINYL CHLORIDE SAFETY ASSOCIATION
