Dear Mr. Grumbles,

Thank you very much for the information on benzene monitoring program you sent me last year.

We are now stepping up the implementation of that program in our Plant, and our Medical Dept. would appreciate very much, detailed information, if possible, on the following medical aspects of the program:

- a) Medical Exam.
- b) Full Physical.
- c) Lab. Exam.

I thank you for everything and look forward to hearing from you again,

Yours sincerely,

E. Albiach.
Safety Director.
