

INTRACOMPANY CORRESPONDENCE

R-98 (Rev. 1-68)

FROM:	A. S. Millsap	EXHIBIT 70
TO:	Jack Barbee	
COPY:	Dave Hopkins/Roger Nelson, Bill Warner	
DATE & SUBJECT:	April 10, 1985 ASBESTOS EXPOSURE	

Attached is a copy of the Asbestos report from Richmond. It is obvious from W. O. Bourke's cover letter that we are to eliminate the use of all asbestos materials here in the Sherwin Plant.

Should you make the decision to continue using any asbestos materials in the Sherwin Plant when substitute materials are available, please let me know.

Should I not hear from you between now and April 20, 1985, I will assume that there will be no further use of asbestos materials in the Sherwin Plant.

I am required to report one of these two situations, to the Richmond Industrial Hygiene Department by the end of this month.

Stan
