Meeting Logistics

Requesting individual/organization:	American Chemistry Council
Contact information:	Ryan Jackson, [HYPERLINK "mailto:ryan_jackson@americanchemistry.com"], 202-679-1469, Vice President, Federal Affairs
Title of the meeting:	Innovation and Domestic Manufacturing Opportunities from the Chemical Manufacturing Sectors and Contributions to Powering the Great American Come Back Initiative.
Describe the proposed meeting topic/agenda, provide available briefing materials:	The chemical manufacturing sector is already responding and producing on each of the administrator's 5 pillars. We are leading responsible and environmentally protective production through the industry's Responsible Care program. We are the foundation for new energy production, automotive production, and new domestic manufacturing as the necessary building blocks. EPA is the principal federal regulator for our industry and the industry wishes to work with the EPA on permitting reforms at EPA including new uses for AI to protect and promote US innovation. The chemical manufacturing sector is working on a series of regulatory actions from the previous administration some of which present impediments to new domestic manufacturing. The purpose of the meeting is to ensure the administrator is aware of key priorities for the chemical manufacturing industry which coincide with the aims of each the EPA's 5 pillar initiative and provide specific and concrete ways to work to achieve each of the 5 pillars.
Describe the action sought from the meeting and/or identify desired outcome(s):	The purpose is to inform the administrator of ways the chemical manufacturing industry can contribute to his plans for the EPA and how we are already working with new leadership at EPA.
Proposed meeting date and time (if date is flexible please indicate the range):	At the administrator's convenience.
Requested length of time:	** Some participants will now be Washington DC the week of April 7 which presents a convenient time for them if convenient for the administrator.
	30 minutes.

Background for the Meeting

Will the meeting involve legislation, broad policy options, or other general matters that involve a large and diverse range of persons and interests? (If yes, please describe.)

Generally, the chemical manufacturing sector can contribute to new domestic manufacturing, however, a regulatory environment which recognizes those new contributions is necessary. The industry would like to identify how to achieve permitting reform with the help of AI; new energy, automotive production and other domestic production; all while maintaining world class environmental standards for air, water, and land.

Will the meeting involve regulations, rules, or other matters that impact a specific industry, sector of the economy, or group of persons? (If yes, please describe.)

Yes,

- *Procedures for Chemical Risk Evaluation Under the Toxic Substances Control Act (TSCA) and general procedures for permitting new chemistries and existing chemicals in commerce.*
- *NSPS for the Synthetic Organic Chemical Manufacturing Industry and NESHAP for the Synthetic Organic Chemical Manufacturing Industry and Group I & II Polymers and Resins Industry (HON),*
- *SNURs for 18 chemicals made from plastic waste-derived feedstocks (Proposed),*
- *PFAS regulation generally to reach measurable water standard and actual remediation action.*

Will the meeting involve a litigation matter, a permit, a grant, a contract, or any other matter that involves specific parties? (If yes, please identify the matter and list the specific parties.)

No.

Any additional notes or information?

No.
