Subject: Re: Louisiana Wetlands

Thanks John. Ann is the best person to work with on opportunities going forward.

Sorry for the short note. Am running between meetings with the Administrator.

Lee, Ann,

It was good meeting all of you this morning. Thanks for taking the time to speak with me about restoration of Louisiana wetlands.

Please let me know if you have other recommendations for people we should meet with to educate about our Louisiana wetlands restoration. In particular who we should speak with at the EPA Gulf Coast program office, the Restore Council staff, and the Louisiana state team that would represent LA interests on both the NRDA TIG and the Restore Council. The LA contacts are particularly important as we deal with many people in the state but not sure who is best positioned to speak on this subject.

We also spoke with NFWF regional director who is going to connect us with their person working on funding habitat projects from Macondo spill payments.

As promised, here is a video Ducks Unlimited and our company produced earlier this year.
