MAIN OFFICE AND REFINERY

BRADFORD, PA.

September 9, 1938

Dr. R. A. Kehoe
Kettering Laboratory
College of Medicine
Cincinnati, Ohio

Dear Doctor Kehoe:

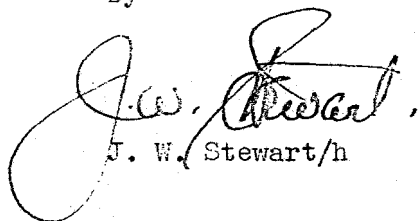

About the middle of August you provided Dr. S. A. McCutcheon, a Bradford physician, with the equipment for taking a blood sample which sample was forwarded to you for analysis.

Since that time we have had no report of the analysis of this sample and inasmuch as this man's case is expected to come before the Pennsylvania Department of Labor and Industry's referee in the near future, we hope that you will be in position to provide us with the report at an early date.

Yours very truly
