Dear Gil,

Regarding your letter dated April 16, 1996 concerning the change in our membership status.

Our participation as a member in FMSI was motivated by the involvement of one of our European manufacturers in the manufacture of Brake Shoes. The FMSI number has become an industry standard and although we were just developing this business in North America, we wanted to be well informed and up to date.

We are still in the early stages of developing our brake shoe business in North America. With our current level of business, we simply can not justify continuing our membership in FMSI at a cost of over \$2000.00

We have not ruled out rejoining FMSI at a later date when our level of business would warrant the investment of a Regional Membership.

Best Regards,

Barry S. Cohn
