Paint Now!

with ECONOMICAL SWP and save money!

Your paint-starved house is in poor shape to face bad weather. A few months of rain, sleet and wind will do a surprising lot of damage. Next spring it will cost you twice as much to repaint. Now is the time to save money by protecting your house with a tough, armor-like film of fine old SWP House Paint—famous the world over for *service* and *economy*.

Sherwin-Williams Products are sold throughout the world, under this trade-mark.

You need fewer gallons

SWP House Paint may cost slightly more than cheaper paint *by the gallon*. But that slightly higher gallon price buys SWP's wonderful "body" and amazing covering quality.

Fewer gallons of SWP do a much better job because every gallon *thoroughly* covers more square feet of surface. Therefore, SWP costs less *on the wall*. That slightly higher "gallon" price also buys SWP's rich, weatherproof colors and a tough, armor-like paint film that lasts years longer. SWP often cuts repainting costs 50% to 75%. And do not forget that the superior quality of SWP colors gives your house a much finer appearance. Even to the last day it has a *quality* look.

To see actual SWP colors . . . to learn the *facts* about SWP economy . . . or to find the correct finish for any interior or exterior surface, call on the Sherwin-Williams "Paint Headquarters" in your locality. THE SHERWIN-WILLIAMS CO., General Office and Factory, 1450 Sherwin Ave. OLympic 2700. (Wholesale only.)
