

Your Opportunity

Any of our employees—and this means you
—will receive an award—

- 1—For preventing an accident—
- 2—For rescuing a fellow-employee from
any immediate danger or further in-
jury—
- 3—For submitting an acceptable safety
suggestion.

These awards are in the nature of a pocket
knife, pencil, billfold, pocket secretary,
etc., upon which your name is inscribed.

TO OUR EMPLOYEES

WE BELIEVE that all of you are interested in safety. There is no reason why you should not be, for safety means Accident Prevention.

AND THAT MEANS

- (1) Saving millions of human beings, maybe yourself, from pain, suffering and unescapable monetary loss which follow in the wake of accidents—
- (2) Saving thousands of persons, perhaps yourself, from untimely death—
- (3) Saving thousands of women, probably your wife or mother, from privation and suffering—
- (4) Saving thousands of children, possibly your own, from becoming dependent upon charity.

As a human being with every reasonable desire for happiness, health and physical well-being, both your own and that of your family, you are naturally interested in every important and practical means of enjoying these blessings.

It is not our intention to "preach a sermon" on accident prevention, but merely to let you know that we are with you and earnestly desire your co-operation in the great work of conserving human life.

Why not become a leader in the safety movement? Why not win one of the safety awards mentioned on the front cover? Why not distinguish yourself as one who can use his head as well as his hands, as one who helped to prevent injury to his fellow-men?

The Maryland Casualty Company has authorized us to present one of these safety awards to any employee who:

- (a) By any act of his own, saves an endangered fellow-employee from actual injury,
- (b) Or who, by presence of mind and quick action, in the event of an accident, saves an injured fellow-employee from a more serious injury,
- (c) Or who submits to us a practical safety suggestion that will eliminate any possible hazards connected with our work, or submits an idea that will increase the safety of our employees.

LET'S WORK TOGETHER
