PREREQUISITE REVIEW	Prereq - 1

LESSON ONE-MODULE 1: BRAKE SYSTEM DIAGNOSIS AND TESTING

Symptom-to-System-to-Component-to-Cause Diagnostic Procedure	2
Customer Concern	2
Symptom Charts	2
Pinpoint Tests	2
Removal and Installation	2
Disassembly and Assembly	2
Other Component and Subsystem Tests	2
PRELIMINARY BRAKE SYSTEM CHECKS	3
DIAGNOSTIC TESTS	4
External Leak Test	4
Master Cylinder Non-Pressure External Leak Test	4
Air Entrapment Test	5
Master Cylinder Fluid Bypass Test (Internal Leak Test)	5
Master Cylinder Compensating Port Test	6
Hydro-Boost System Inspection	7
Hydro-Boost Functional Check:	7
Accumulator Test:	8
Hydro-Boost Air Bleeding	8
COMMON CUSTOMER CONCERNS	9
Brake Roughness	9
Normal Roughness	9
Abnormal Roughness	9
Brake Roughness Diagnosis	10
Brake Pedal Low or Feels Spongy	12
Brake Pedal Low or Feels Spongy Diagnosis	12
Pedal Eases Down Slowly	13
Pedal Eases Down Slowly Diagnosis	13
Pedal Goes Down Fast/Excessive Pedal Travel	14
Pedal Goes Down Fast/Excessive Pedal Travel Diagnosis	14
Brakes Pull or Drift	15
Brakes Pull or Drift Diagnosis	15
