

- Heart—Continued
 lead poisoning: failure to affect, 412
 myocardial infarction: compensation aspects in industrial medicine [Thompson], *292
 in silicosis, 530
 symposium on, 426
- Heat
 fatigue and: effects on metal workers, 207
- Helmann, H.
 Health and air pollution, *399
- Heinz Bodies: See under Erythrocytes
- Hemoglobin and Hemoglobin Compounds: See also Blood, hemoglobin
 biochemical and physiological aspects in lead poisoning, 206
- Hemopoietic System: See also Erythrocytes
- Henry, R.
 Viewpoint of religion (toward plant industrial health program), *192
- Hexamethylenediamine
 intoxication: experimental research by, 109
- Hoag, A. E.
 Value and operation of industrial medical program, *375
- Hodes, W. A.
 Toxic effects of exposure to vapors of aliphatic amines, *287
- Holden, F. R.
 Chemical analysis in industrial hygiene, *159
- Hormones: See Estrogen
- Hosey, A. D.
 Lightweight power supply for electrostatic precipitator, *198
- Howard, M. N.
 Value and operation of industrial medical program, *375
- Hudson, H. H.
 Maximum allowable concentrations (of toxic substances), *161
- Hussain, S. I.
 Study of nitrogen (oxide): concentrations during arc welding, *135
- Hydatidosis: See Echinococcosis
- Hydrocarbons: See also Benzene; Carbon Tetrachloride; etc.
 carbon monoxide poisoning: danger in conversion of, and in manufacture of metal carbonyls, 335
- Hydrogen
 phosphide: See under Phosphorus and Phosphorus Compounds
 sulfide: See Sulfides
- Hydroquinone
 factories: occupational damage of eyes of workers in, 411
- Hygiene and Sanitation: See also Health
 chemical analysis (role in) [Holden], *159
 chlorovinyl plastics: measures in production of and manufacture from, 324
 codes, 520
 dermatitis: among citrus fruit workers, suggestions for elimination of [Birmingham & others], *62
 Germany: report on, in western zone [Tabershaw], *298
 plant survey by hygienist [Lauer], *150
 problems in Brazil, 409
 program: how good is it? 408
 safety and: problem in water and sewage works, 332
 working environment, 520
- Industrial Health Monthly
 new name for *Industrial Hygiene Newsletter*, 541
- Industry and Occupations: See also Psychiatry; Workman's Compensation and Insurance, and under names of industries, as Agricultural Workers; Citrus Fruit Canning Industry; Fluorescent Lamp Industry; Machinists; Metal Workers; Sandblasting Industry; Submariners; Welders and Welding; etc.
- Industry and Occupations—Continued
 color contrast in working places in relation to production, 332
 concentrations: maximum allowable [Hudson], *161
 occupational diseases: newer, 209
- Inhalation: See also under names of substances, as Benzene; Dust; Fluorides; Mists; Nitrogen; etc.
 industrial dusts: variations in individual susceptibility to, inhaled into lungs, 205
 of oxygen: effects, 206
- Inkley, S. R.
 Five cases from fluorescent lamp industry: treatment of chronic beryllium poisoning with ACTH and cortisone, *549
- Insecticides: See also DDT
 chlordan, aldrin and dieldrin: study of workers exposed to [Princi & Spurbeck], *64
 chlordan vapors: toxicity to mice of solutions administered cutaneously and, 214
 organic phosphate: toxicology, 213
 parathion: toxic effects, 213
- Instruments: See also Apparatus
 air sampler: modified, employing fiberglass [Sehl & Havens], *98
 air sampling: lightweight power supply for electrostatic precipitator [Brown & others], *198
 air sampling: studying environment [Adley], *153
 Nife aerosol indicator: new aid for rapid determination of dust content in air, 218
 Venturi scrubber: for sampling air contaminants, 217
 vibrating tools: undesirable effects on industrial workers, 337
 water-spray drills: new studies at Amercoeur coal mines, Hasselt, Belgium, 1950, 221
- Insurance: See Workman's Compensation and Insurance
- International Labor Office
 vacancy, 117
- Intoxication: See under names of substances, as Benzene; Mercury; Nitrotoluene
- Isotopes, Radioactive: See Radioactivity
- Jaffin, A. E.
 Metabolic study of case of chronic beryllium poisoning treated with ACTH, *579
- Jones, H. H.
 Lightweight power supply for electrostatic precipitator, *198
- Journals: See Periodicals
- Jurisprudence, Medical
 conference, 437
 industrial health legislation: compilation of state laws and regulations, July, 1950, 337
- Kaolin
 pneumoconiosis: attributed to, 529
- Kehoe, R. A.
 Medical control (of industrial hazards), *165
- Kessler, H. H.
 Viewpoint of physician in industry, *185
- Kidneys
 behavior: histopathologic modifications in experimental intoxication due to trinitrotoluene, following therapy with lipocalc (pancreatic hormone) and methionine, 330
 carbon tetrachloride poisoning: mechanisms of failure and recovery in man, 532
 carbon tetrachloride poisoning: pathology of fatal, with special reference to histogenesis of hepatic renal lesions and, 530
 heart failure: congestive, of renal origin: pathogenesis and treatment in four cases of carbon tetrachloride nephrosis, 212
- Klemperer, F.
 Current research problems concerning pulmonary granulomatosis in beryllium workers, *625
- Kline, E. M.
 Aiding the cardiac patient in industry, *454
