

January 15, 1948

Dr. R. N. Buchanan, Jr.,
326 Doctors Building,
Nashville, Tennessee.

Dear Dr. Buchanan:

Please accept my thanks for your letter of January 9 concerning your patient, Mr. [REDACTED]. This information gives me what I require. It occurs to me that you may be interested in some observations which we made some time ago on a man who had become highly sensitized to contact with gasoline. Accordingly I enclose a reprint of this article for such use as it may be to you.

Very truly yours,

Robert A. Kehoe, M. D.
