

1 linings is chrysotile.

2 Because Ford does not manufacture the clutch
3 facings or brake linings, it does not know the
4 percentage of asbestos they contain.

5 Reading from another set of interrogatories,
6 which are from the case of Gartner versus Eagle-Picher
7 Industries, dated April 8, 1986, beginning with
8 interrogatory C, 7-A and B.

9 The response to that, which is a follow-up
10 to the last one.

11 Ford has sold, since 1919, and continues to
12 sell, vehicles and parts including brake linings, pads
13 and clutch facings under names such as Ford, Edsel and
14 Mercury and under various makes and models, as well as
15 names such as Motorcraft.

16 After-market and replacement parts are sold
17 under the name of Ford or Ford Authorized
18 Remanufacturers.

19 Vehicles manufactured by Ford incorporate
20 brake linings, which are composed, in part, of
21 asbestos. Ford purchased these brake linings from
