ENVIRONMENTAL SCIENCE CURRICULUM COMMITTEE

Dear Committee Member:

Thank you for your interest in our Environmental Technology Program. As you are aware, this program is to be one of a select number of two-year programs in the nation, focusing on water, air and ground pollution abatement.

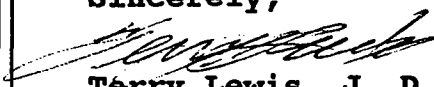

Included in this package are the names of committee members, a summary of activities from the January 18, 1994 committee meeting, and three course descriptions.

The success of this program depends on your continued cooperation. Please review all enclosures. Our next meeting will be held at 11:00 a.m., Wednesday, February 16, 1994 in the Board Room, #2085, State Community College, 601 James Thompson Blvd., East St. Louis, Illinois.

We are attempting to make the third Wednesday of each month at 11:00 a.m. our regular meeting date and time. If there is a conflict with your schedule, please contact my office.

Thank you for your cooperation.

Sincerely,

Terry Lewis, J. D.
Dean of Curricular and Instructional Services
