Dr. C. C. Blackwell, Jr.
Medical Dept.
Chicago

Dear Charles:

The attached article from the N. Y. Times Magazine section of January 21, 1973 on asbestos sure is food for thought.

Coincidentally Dr. Irving Selikoff who wrote the article you gave me a few days ago takes a prominent place in this write-up. As I recall you said Dr. Selikoff was the "Ralph Nader" of industrial medicine.

I am attaching a copy of the article for all people receiving copies of this.
