Mr. E. W. Bullard
E. D. Bullard Company
275 Eighth Street
San Francisco, California

Dear Mr. Bullard:

We have your letters requesting approval of the Ethyl Gasoline Medical Department of the new type face piece which you are using.

Dr. Kehoe who is in charge of this department is away at the present time but will return in September. I would suggest your sending on a face piece or complete mask in order that we may examine this and test it out. We are most interested in the canister type mask with the new face piece.

Very truly yours,

WM:IS
