

Please join us  
for an exclusive construction industry-related conversation with  
***EPA Administrator Scott Pruitt***

This invitation-only special event is a rare opportunity to hear directly from the EPA administration. Featuring opening remarks by Administrator Pruitt, a candid conversation between Administrator Pruitt and Jerry Howard, CEO of NAHB, and a question and answer session moderated by Jerry Howard— this is our chance to make sure the concerns of our industry are being listened to by the new administration. This event will address construction-industry issues such as the EPA's impact on the Clean Water Act and Waters of the United States, as well as the EPA's plans for the future including administering the Clean Water Act and what it means for the industry.

*Attendance is limited— tables must be purchased and filled by each respective association.*
