

Class I and II Well Inspection Form US Environmental Protection Agency – Region 4 Underground Injection Control Program 61 Forsyth Street SW, MC 9T25, Atlanta, Georgia, 30303 Phone: (404)562-9424					Inspection ID	EPA Well ID#: K Y S 0 9 9 0 0 0 4																																																													
						Year-Month-Day: 2 0 2 4 - 1 0 - 2 4																																																													
						EPA Permit # (or RA): K Y I 0 3 8 9																																																													
						Page 1 Of 2																																																													
Inspector(s): Carol Chen (lead), Lonnie Dorn					Start Time: 8:34 am					End Time: 8:40 am																																																									
Facility Contact Information	Facility Name: Logsdon Valley Oil Co., Inc.																																																																		
	Street Address: 105 Bedford Court																																																																		
	City: Horse Cave County: Hart State: KY Zip: 42749																																																																		
	Nature of Business: oil production																																																																		
	Facility Owner/Operator: Ms. Ellen Stinson, President Phone: 270-537-4288																																																																		
	Email: estinson@scrtc.com																																																																		
	Facility Contact (if different): Phone:																																																																		
	O/O Mailing Address: 105 Bedford Court																																																																		
City: Horse Cave County: Hart State: KY Zip: 42749																																																																			
Well Data from File	Well Name & #: GUINN #UA-3																																																																		
	Well Type (see table): Class II-R, Enhanced Oil Recovery (EOR) State Permit: 77804																																																																		
	Latitude (°N): 37.175341 Longitude (°W): -85.789236 Elevation (ft):																																																																		
	Injection Method (check applicable): ☐ Casing Injector; ☒ Tubing & Packer; ☐ Cemented Injection Tubing																																																																		
	☐ Other:																																																																		
	Total Depth (ft): 627 Inner Casing Size (in): 4 1/2" Tubing Size (in): 2 3/8" Packer Depth (ft):																																																																		
Inj. Zone: ☐ Open Hole; ☐ Perforated; Top(ft) Bottom(ft): Max. Injection Pressure (psig):																																																																			
Field Measurements and Observations	Latitude (°N): 000 Longitude (°W): 000 Elevation (ft):																																																																		
	EPA GPS ID: SC8284 Well Status (see table): TA If not Active, Reported Date Last Active: 3/17/2016																																																																		
	Nature of Injected Fluid(s) if any:																																																																		
	General Condition of the Well Site:																																																																		
	Notes & Comments (include discrepancies from database values):																																																																		
	Tank truck with hoisting and rigging equipment, held over the injection well.																																																																		
See reverse for additional observations, comments and photo log
