I am out of town then but agree we should go forward. Perhaps John can attend. If not, it sounds less like something where you would need attorney input in any event. But remember those antitrust invocations.

This is very good news!!!

The Tech Committee with Jerry Rice included should decide if we want to hire her or not first, then determine the appropriate next step.

Russ,

Please set up a conf. call with the TC, include Dr. Rice. He is available anytime on Friday, June 22 per my conversation with him minutes ago. Let's shoot for Friday, anyone who can not attend, please send your thoughts ahead of time to move this important issue along.

MANY THANKS, RUSS!!

Thanks,
Jennifer Galvin

A quick note to tell you that Kris Hover called me yesterday from the airport on her way to Munich Germany. She is interested in supporting the SHS and while very busy this summer, can go to Shanghai. In fact she currently supports a Health Effects Institute (HEI) study at Fudan University, School of Public Health (see below) and has visited and audited data at Fudan already!

She will be back in the USA next week. Should I arrange a conference call between Kris and Jerry Rice? Or the Tech Committee? A select few?

Shanghai, China
"A Time-series Study of Ambient Air Pollution and Daily Mortality in Shanghai, China"
